Resolutions:

1. It has been resolved unanimously that,
 - (1) The unspent amount of UGC SAP BSR grant will be spent to build the basic infrastructure of the individual labs and the project labs situated in the second floor of New Science building. In the connection members resolved that a number of single and double sided working benches very much essential for both project and individual labs (Subal manne & Maidul Hossain's lab). The number of these working benches will be decided after getting the estimate of each bench from the Engg. dept. of our University.
HOD is requested to write the Engineer, VU to get an estimate of the above works e.g. wooden partitions for individual labs of the faculty members of the second floor, working benches (single and double sided), sinks, electrical works.
 - (2) Prof. Brajendra Saha Bag, has been nominated for the innovative research program of the University chaired by the Dean Faculty of Science.
 - (3) Since the 1st installment of DST RIST grant is exhausted, the necessary fund for purchasing liquid nitrogen for NMR instrument may be incurred from UGC SAP grant of the dept. This bifurcation of fund will be readjusted after receiving the
