

UJ/PA/Chem/150.

Dt - 04-06-2015

An emergent DC meeting will be held today at 4:45 PM. at HOD office.

Agenda: Request for grille partition & gate in the Chemistry Corridor (old)

1. S. Datta
2. Pradyumn
3. Albin
4. Sumita Roy
- 5.
6. Omendra
- 7.

Members present.

- 1. Dalai
- 2. [unclear]
- 3. [unclear]
- 4. Swika Rang
- 5. [unclear]
- 6. [unclear]
- 7. [unclear]

The exhaust fumes coming out of the Chemistry laboratories get stuck in the middle of the Old Science Building and all the Departments (including Chemistry) suffer a lot due to this. The problem becomes unbearable during rainy season and it affects the class rooms and offices also. As all the walls have been demolished during the ongoing renovation work, a grill partition instead of brick wall will solve the purpose.

In this connection, the DC unanimously resolved that the University Authorities be requested for the construction of a grill partition so that it will help in proper ventilation and hygienic atmosphere in the surroundings. A schematic representation for the Grill partition and Gate in the Chemistry wing (shown) is given below:
