DC Resolution

Ref. VU/PG/Chem/152 dated 12th June, 2015

DC unanimously resolved that the expenditure of Rs. 33,448/- incurred for the import of two sophisticated instruments namely GC-MS and UV-Visible spectrophotometer (Rs. 32,150/-) from Japan and organization of National/International symposia (Rs. 1,298/-) are due to fluctuations in the Indian Rupees to Japanese Yen conversion rates that is beyond our control and for better academic interest of the Department. Hence, the University Authorities are requested to kindly arrange for the payment of the same from any unspent funds available.
