

Action taken on the outcomes of the Parents- Teachers Meeting on 14-8-2018:

1. All the teachers have taken ample initiative to publish the results of the internal assessment and have devoted time for direct interaction with each and every student on the results of international assessment so that they can improve their performance in the term-end examination.
2. The department has become stricter with regard to the regular attendance of students in the classes of both the semesters (second and fourth) of M.Com course as well as M. Phil Program in Commerce. The teachers have been regularly counseling the students regarding the importance of attending classes and discussing the problems with those students who had less attendance.
3. In line with the request made by the HOD to make the educational tour even more successful, three teachers participated in the educational tour for the purpose of improving the exposure of the students. Moreover, as per the discussion with the parents the department has incorporated one paper on 'Industrial visit' in the third semester of the course curriculum that carries 50 marks.
