Resolutions of USIC Committee meeting held on 12.03.2019

Prof. Subrata Kumar De, Dean Faculty of science, Chair the meeting.

(i) Agenda: Space requirement of USIC.

Resolution: During the last visit of Hon'ble Vice-Chancellor to USIC dated 08.02.2019, Director of USIC gave a presentation before the visiting team and raised the issue of space requirement for USIC. Hon'ble Vice-Chancellor advises the Director to convey a USIC Committee meeting to discuss thoroughly for the possible expansion /relocation of USIC.

Prof. Subrata Kumar De, Chairman of the Committee initiated the discussion and all the members participated to it. It has been resolved unanimously that the expansion of USIC at its present location would be a better option rather than relocate it or to any other room far away from its location or to a separate building made for USIC only.

Members resolved that the two adjacent room one used by Physiology dept. and the other used by Geography dept. may be a good option for the possible expansion of USIC.

Members also resolved that the Director of USIC will write letter to the Heads of both Physiology dept. and Geography dept. for their view in this connection.

(ii) Agenda: Proposal of instruments.

Resolution: At present there are 22 nos. of instruments which are heavily used by the researchers of various dept. of University and also faculty members of various colleges. Keeping in mind the need of the researchers, some more instruments are required to enhance the quality of research. All the members participated in the discussion and proposed the following instruments.

Name of the instruments:

Prof. Subrata Kumar De, Chairman of the meeting requested the following faculty members to present quotation with probable configuration and cost of the instrument to the Director of USIC.

S.I no.	Name of the instrument	Name of the Faculty
1.	Transmission Electron Microscope (TEM)	Prof. Subrata De
2.	Scanning Electron Microscope (SEM)	Prof. Ajay Kr. Misra
3.	Single crystal XRD	Prof. Ajay Kr. Misra
4.	Spectroradiometer	Dr. Jatisankar Bandyopadhyay

AR De
