Acknowledgement

Any achievement, be it scholastic or otherwise does not depend solely on the individual efforts but on the guidance, encouragement and cooperation of intellectuals, elders and friends. A number of personalities, in their own capacities, have helped me in carrying out this research work. I would like to take this opportunity to thank them all.

First, I would like to express my deep gratitude to Prof. (Dr.) Jyotsna Kumar Mandal, Professor, Department of Computer Science and Engineering, University of Kalyani for his continuous guidance and encouragement for completing my research work.

I would like to express my immense gratitude to Prof. (Dr.) Saurabh Dutta, Principal, Dr. B.C. Roy Engineering College, Academy of Professional Courses, Durgapur, West Bengal, India for his excellent guidance, advice, support and cooperation which strongly influenced the direction and quality of my research work. He has enlightened the area of cryptography and information hiding to me with technical details and theoretical explanations. He always encourages me to explore unique ideas. This work would not have been completed without patience full, diligent and caring supervisor like him.

I extend my sincere thanks to Prof. Ranjan Chakrabarti, Honorable Vice Chancellor, Vidyasagar University for his moral support and inspiration for my work.

I would like to thank Prof. Subrata Kumar De, Dean, Faculty Council for Postgraduate Studies in Science, Vidyasagar University for his valuable support and advice during the period of my research work.

I would like to express my deep gratitude to Prof. Satyajit Saha, Coordinator, Department of Computer Science, Vidyasagar University for his inspiration and support during my research work.

I am extremely grateful to Dr. Biswapati Jana, Assistant Professor, Department of Computer Science, Vidyasagar University for his continuous guidance and encouragement for completing my research work.

I would like to express my deep gratitude to other faculty members of the Department of Computer Science, Vidyasagar University for their valuable support and encouragement for my research work. I would like to thank all the technical and non-teaching staff of the Department of Computer Science, Vidyasagar University. Without their support and blessings, this work would not have taken its shape.

I want to thank all Vidyasagar University, Midnapore, fraternity who has been associated with my work for encouraging and helping me for completing the research work.

I would like to express my deep gratitude to Honorable Vice Chancellor and Registrar of Maulana Abul Kalam Azad University of Technology, West Bengal, Director and Registrar of Haldia Institute of Technology, my previous employer, for supporting and providing me the opportunity for carrying out my research work.

I want to extend my thanks to my colleagues of Department of Computer Applications, CSE and IT of Haldia Institute of Technology, Haldia, West Bengal, India for their valuable suggestions and knowledge which has supported me for carrying out my research work.

I also want to express my thank to Honorable Vice-chancellor and Registrar of Bankura University, West Bengal, my current employer, for giving me the opportunity for completing my research work.

Thanks to my parents, in-laws, sister, sister-in-law and wife and for their inspiration, support and love which influenced my determination and confidence for carrying out my research work throughout all the hurdles.

Lastly, I want to express my heartiest thanks to all of my friends for their support and encouragements which has motivated me to put my best effort into my work.

Tamluk
