

List of Tables

Chapter 4	
Table 4.1	: <i>V. parahaemolyticus</i> isolates from the aquaculture environments of India and the accession number of <i>16S rRNA</i> gene submitted to the NCBI Genbank
Table 4.2	: Comparative biochemical analysis of three different isolates S24P132, AP429 and SPEM2 with published biochemical data of <i>V. parahaemolyticus</i>
Chapter 5	
Table 5.1	: List of primers used in this study
Table 5.2	: Molecular Characterization of environmental <i>V. parahaemolyticus</i> isolates from the aquaculture environments of India
Chapter 6	
Table 6.1	: Gene flow and genetic differentiation based on <i>16S rRNA</i> sequences of <i>V. parahaemolyticus</i>
Table 6.2	: Nucleotide and allelic diversity of housekeeping genes used in MLST of <i>V. parahaemolyticus</i> isolates
Table 6.3	: Geographic distribution of different STs identified from MLST analysis
Chapter 7	
Table 7.1	: Identification of different protein spots of secretome of <i>V. parahaemolyticus</i>
Chapter 8	
Table 8.1	: List of primers used in the immune gene expression study
Chapter 9	
Table 9.1	: The pockets present in the structure of the Tdh protein, along with the volume, residual composition, and interaction sites.
Table 9.2	: The pockets present in the structure of the Trh protein, along with the volume, residual composition, and interaction sites.
