

## ACKNOWLEDGEMENT

This Ph.D. thesis would not have been possible without the help of several individuals whose contribution in assorted ways to the research and the making of the thesis deserved special mention. It is a pleasure to convey my gratitude to them all in my humble acknowledgment.

In the first place I would like to thank Dr. Abhisek Chakrabarty, Assistant Professor, Department of Remote Sensing and GIS, Vidyasagar University, Midnapore, Paschim Medinipur, West Bengal and Dr. Manoj Kumar Nanda, Professor, Department of Agricultural Meteorology & Physics, Bidhan Chandra Krishi Viswavidyalaya, Mohanpur, Nadia, West Bengal for their supervision, advice and guidance since the early stage of this research. Their sincere involvement in research activities, patient listening of my problems and meticulous approach to deal with problems nourished my intellectual maturity that I will benefit from, for a long time to come. I am grateful to them in every possible way and will keep learning as their student in the future.

I am extremely grateful and wish to express my indebtedness to Dr. Dibyendu Dutta, Scientist/Engineer– 'G' and Group Director (CSG), Earth and Climate Sciences Area, NRSC/ISRO, Balanagar, Hyderabad, India for his noble guidance, keen interest and constant encouragement throughout the whole research work. His valuable comments, in-depth knowledge in the subject, strong persuasion and constructive suggestions lead me to the successful completion of the study.

I must extend my thanks to General Manager of RRSC-East/ISRO, Kolkata for providing the data support and technical facilities to carry out my research study. I express my gratitude towards Prabir Kumar Das, Scientist, RRSC-East, ISRO, New Town, Kolkata for helping me understand the issues related to processing of remote sensing images, modelling and implementation of data with his expert advice during the course of research.

I gratefully acknowledge Prof. (Dr.) Ranjan Chakrabarti, Hon'ble Vice-Chancellor, Vidyasagar University, Midnapore, West Bengal, India for providing constant support, research facilities and inspiration.

I am highly thankful to Dr. Ashis Kumar Paul, Professor and HOD, Department of Geography and Environment Management of Vidyasagar University for his constructive comments and suggestion during my research work.

I express my sincere gratitude towards Dr. Jatisankar Bandyopadhyay and Dr. Dipanwita K. Dutta, Faculty of Department of Remote Sensing and GIS, Vidyasagar University for their motivation and encouragement toward the completion of this research work.

I owe my sincere thank to all the administrative staff members of the research section of Vidyasagar University for their cooperation and responsiveness in completing the official procedures.

Collective and individual acknowledgments are also owed to my colleagues for giving me such a pleasant time while working together with them. I also like to thank Mr. Sumanta Saha, Technical Assistant, Department of Remote sensing and GIS who took extra pains for me beyond normal office hours.

I acknowledge the USGS data archive ([www.eo1.usgs.gov](http://www.eo1.usgs.gov)) and Google Earth for providing online support through satellite data.

It is my privilege to keep on record the help and cooperation extended by the Government officials of Agricultural Departments who help me during field studies.

I express my thanks to my friends Nirupam Acharyya, Kaji Arif Alam, Safwan Paramban, Subhprakash Mandal, Samrin Fatema Chaudhuri, Atanu Ojha, Soubhik Paul, Libeesh Lukose and Santu Samanta who have spent their precious time with me by inspiring me during the research period.

At this moment I extremely miss my mother, late Sabitri Kundu, who nurtured my childhood with lessons-in-action in discipline, consistency, patience and hard work. She ignited in me the passion for research and innovation and always wanted to see me reach this stage.

My father Bangshibadan Kundu deserves special mention for his unconditional love, support and prayers who sincerely supported me in all my academic activities. Words fail me to express my appreciation to my wife Mousumi whose dedication, love and persistent confidence in me, has made this thesis possible. A hearty love is due to be expressed for my beloved Nephew Agnish whose hugs and giggles always revived me to do my work with a fresh mind.

Finally, I would like to thank everybody who was important to the successful realization of this thesis, as well as expressing my apology that I could not mention them by name.

Last but not the least I wish to acknowledge the blessings of the one above all of us, the universal almighty, for giving me the strength to complete this work on time.

**Date:** 21.01.2019
