

LIST OF TABLES

Sl. No	Description	Page No
3.1a	Mean monthly temperature (⁰ c) of Bankura district (2009 to 2014)	33
3.1b	Mean monthly temperature (⁰ c) of Burdwan district (2009 to 2014)	33
3.1c	Mean monthly temperature (⁰ c) of Hooghly district (2009 to 2014)	34
3.1d	Mean monthly temperature (⁰ c) of Howrah district (2009 to 2013)	34
3.1e	Mean monthly temperature (⁰ c) of Paschim Medinipur district (2010 to 2014)	34
3.2a	Mean monthly rainfall (mm) distribution of Bankura district (2009 to 2013)	35
3.2b	Mean monthly Rainfall (mm) Distribution of Burdwan District (2009 to 2013)	35
3.2c	Mean monthly rainfall (mm) distribution of Hooghly district (2009 to 2013)	35
3.2d	Mean monthly rainfall (mm) distribution of Howrah district (2009 to 2013)	36
3.2e	Mean monthly rainfall (mm) distribution of Paschim Medinipur district (2009 to 2013)	36
3.3	Year-wise potato production in west bengal	39
3.4a	District-wise agricultural land use and potato growing area (2011-12)	40
3.4b	District-wise agricultural land use and potato growing area (2012-13)	40
3.4c	District-wise agricultural land use and potato growing area (2013-14)	40
3.5	District-wise demographic profile (as per 2011 census)	41
4.1	Details of the MODIS NDVI data of 2012-13 for the potato phenological study	47
4.2	Details of the MODIS NDVI data of 2013-14 for the potato phenological study	47

4.3	Description of potato phenological metrics based on NDVI values	58
4.4	Comparison of modelled potato crop area with measured crop area	65
4.5	Statistical validation and performance indicator	65
5.1	Average values of spectral reflectance of potato canopy under different levels of infestation	84
5.2	Summery table of spectral features	88
5.3	Mean values of spectral parameters with respect to PLB disease severity index	89
5.4	Correlation (r) matrix among spectral parameters and disease severity index	91
6.1	Details of the AWiFS data used for the study	99
6.2	Reflectance of AWiFS bands for healthy and diseased plants at consecutive dates of satellite overpass during 2012-13 crop season	107
6.3	Reflectance of AWiFS bands for healthy and diseased plants at consecutive dates of satellite overpass during 2013-14 crop season	108
6.4	Changes of NDVI in healthy and diseased crops	110
6.5	Changes of NDWI in healthy and disease crops	112
6.6	Changes of ABDI in healthy and diseased crops	115
6.7	Changes of PCCF in healthy and diseased crops	117
6.8	Statistical performance indicators	122
6.9	Spatial distribution of areas (remote sensing based) under different severity classes over the observation dates in 2013 and 2014 in Paschim Medinipur district	139
6.10	Spatial distribution of areas (remote sensing based) under different severity classes over the observation dates in 2013 and 2014 in Bankura district	139
6.11	Spatial distribution of areas (remote sensing based) under different severity classes over the observation dates in 2013 and 2014 in Burdwan district	140
6.12	Spatial distribution of areas (remote sensing based) under different severity classes over the observation dates in 2013 and 2014 in Hooghly district	140
6.13	Spatial distribution of areas (remote sensing based) under different severity classes over the observation dates in 2013 and 2014 in Howrah district	140
