The research area of my Ph.D. thesis is all about Inventory Management. The main area of this research based on Operations Research. I owe much to them, who supported me to complete my research. I also like to receive the opportunity to thank them for their encouragement.

At the beginning, I sincerely express my heartfelt gratitude to my supervisor **Dr. Biswajit Sarkar**, Associate Professor, Department of Industrial Engineering, Yonsei University, 50 Yonsei-ro, Sinchondong, Seodaemun-gu, Seoul 03722, South Korea for his supervision, guidance, inspiration, and advice from the beginning stage of my research work. I convey my respect to my supervisor for helping me in research work and providing me continuous mental support. His suggestion on both my research work and my career has been valuable. He provided me always excellent suggestions for presenting the results of the thesis. I would like to appreciate his contributions of time, guidance, and suggestions to develop my Ph.D. experience throughout the research work. I feel very fortunate myself to carry on my thesis study under the direction of my supervisor, who helps me to learn the real technique for doing research work. My research would not have been completed without his supports, helps, and guidance. I will always remember this during my whole life. His punctuality, commitment, loyalty, and dedication for both teaching and research, magnificent performance for problems solving capability, brilliant presentation skills which is a inspiration for my research work as well as my life.
