

Acknowledgments

Every Ph.D. is an adventure journey, and I have been fortunate to have had the support and guidance of many throughout my journey. This dissertation would not have been possible without the guidance and the help of several individuals, who in one way or another contributed and extended their valuable assistance in the preparation and completion of this study.

First and foremost, I would like to show my wholeheartedly and deeply grateful to my supervisor, [Dr. Sankar Kumar Roy](#), Professor, Department of Applied Mathematics with Oceanology and Computer Programming, Vidyasagar University, Midnapore, for introducing me to the beautiful world of location theory. It is through his generous support and guidance that I learned how to tackle big problems and set an ambitious research agenda for myself, a set of skills that will serve me well for the rest of my career. He gave me the freedom to choose my research topics and always helped me to correct every mistake of the work. His continuous effort and unyielding advice help me in every part of my research life. He is always punctual in his work and always dislike to postpone work for the future. Whether it is midnight or a holiday, he is always available to us for solving a problem. I deeply appreciate his numerous invaluable contributions, constant support, inspiration, and understanding. Finally, it's pretty nice to have him as my research supervisor. His continuous effort and unyielding advice help me in every part of my research life. He is too much frank to us that helped

me to solve my personal problem also. He is the reason I accomplished this research.

My special thanks go to Professor Gerhard-Wilhelm Weber, Faculty of Engineering Management, Chair of Marketing and Economic Engineering, Poznan University of Technology, Ul. Strzelecka 11 60-965 Poznan, Poland for his time to provide information and insights about research problems. I owe a lot of gratitude for being there always for me and I feel a great privilege to be associated with such a nice person during my life.

I am very much thankful to the Department of Science & Technology (DST) of India for providing financial support to continue my research work under the [SRF-P (DST-INSPIRE Program)] scheme (No. DST/INSPIRE Fellowship/2015/IF 150209 dated 01/10/2015). I am also thankful to the Editors, Editors-in-Chief of journals and the anonymous referees for their helpful and fruitful comments for publishing the papers.

I would like to express my sincere gratitude to Dr. Shyamal Kumar Mandal, Head and Professor, Department of Applied Mathematics, Vidyasagar University, Midnapore, for providing me all the necessary facilities at his best. I wish to extend my warm and sincere thanks to Professor Madhumangal Pal, Professor Dilip Kumar Maiti, Dr. Ganesh Ghorai, Dr. Raghu Nandan Giri, Dr. Krishnendu Barman, Mr. Ashabul khan and Mr. Nandan Mondal of Department of Applied Mathematics with Oceanology and Computer Programming, Vidyasagar University, Midnapore for their valuable comments, encouragements, supports, and suggestions. I also wish to offer my gratitude to the Honorable Vice-Chancellor, Registrar, Deputy Registrar and all Deans, library and administrative staff of Vidyasagar University, Midnapore, West Bengal, INDIA for providing me full academic and administrative supports and facilities to carry out research work leading to PhD degree. I also record

my thanks to my esteemed my beloved undergraduate teachers Dr. Manimohan Mandal, Dr. Himadri Shekhar Mandal, Dr. Sujit Kumar De, Dr. Dipankar Das, Soumya Kanti Hota, Animesh Ghosh, Nabin Kumar Giri, Dr. Arunava Maiti, school teachers Dhiren Mondal, Mati Lal Das, Asit Mishra, Tapas Maiti, Jayanta Samanta, Manas Das Adhikary, Narayan Shee and Arup Manna.

My appreciation goes to all current and former lab members: Dr. Gurupada Maity, Dr. Sudiptya Midya, Dr. Magfura Pervin, Ankan Bhaumik, Shyamali Ghosh, Jishu Jana, Abhijit Jana, Aparna Das, Haripiya Barman, Asim Paul and Arijit Mandal who asked questions, provided feedback in our research meetings and also left me with pleasant times and memories.

I have received a significant amount of friendships who have helped me at various stages in my life and research work. I am especially thankful to Suman Maiti, Bivas Bank, Radharaman Roy, Somnath Maity, Sarat Chandra Hazra, Rekha Guchhait, Bikash Koli Dey, Pulak Pratihar, Sumanta Mahapatra, Apurba Panda, Swarup Pramanik, Sourav Paira, Smarjit Das and many others who cannot be named here individually for their constant support in my research work. I would also like to thank my house owner Manik Ratan Ghosh for his kind support and keeping me in good spirits.

Last but not the least, there are no proper words to express my love and gratitude to my grandfathers Late Kanai Lal Das, Manik Samanta and Tarun Nandi, my grandmothers Manorama Das, Sandhya Samanta and Rita Nandi, my parents Sakti Pada Das and Lakshmi Das, my parents in law Sukumar Bera and Papia Bera, my uncles Dr. Sujit Samanta and Kalipada Maity, auntie Keka Maity, elder sisters Tanushri Das and Jayashree Das, brother-in-law Rabin Kar, brother Sovan Bera, cousins Purnendu Maity, Abir Das and Sanjoy Das for their unconditional love, encouragement, support, and

prayers. There are no proper words to convey my hearty gratitude to my better half Sanchari Bera for her unconditional love and support. It would be impossible to continue and successfully complete without their blessings, love, understanding, support, and devotion. They are always with me in every up and down in my life, tries to accompanied me with encouragement, trust and enduring love.

In the end, I would like to acknowledge my MacBook Air and Lenovo laptop, Google Scholar, ResearchGate, Sci-Hub and others who were vital to the successful completion of this dissertation and express the apology that I could not mention each of them individually.
