
Acknowledgement

There are many people to whom I owe my thanks and gratitude; without the help of them, this thesis would never be completed. It is a great pleasure to express my most profound sense of gratitude to my supervisors, Dr. Dilip Kumar Nandi Associated professor and Head (PG), Dept. of Human Physiology, Raja Narendra Lal Khan Women's College (Autonomous), for his enlightening guidance, constant encouragement and help at each stage of my research. His remarkable scientific approach and productive discussions made me walk through this journey with ease. He is an extremely caring and understanding person. I also expressed my deepest sense of gratitude to my another respected supervisor, Dr. Sanjay Kar, Assistant Professor, Dept. of Botany, Midnapore College (Autonomous) for encouraging me to carry out the work as well as his invaluable guidance, suggestions, necessary assistance. I am very fortunate to get as my supervisors.

I desire to express my heartiest expression and indebtedness to Dr. Jayasree Laha, Principal, and former Principal, Late Dr. Uday Chand Pal, Raja Narendra Lal Khan Women's College, Midnapore, West Bengal for providing the necessary Institutional facilities for this Ph.D. work.

My sincere thanks to The Honourable Vice-chancellor Professor Ranjan Chakrabarti and Chairman of Ph.D. Committee, Dept. of Microbiology, Vidyasagar University, Midnapore, India for their kind recommendation, endless cooperation and constant help for my research work. I also extend my sense of gratitude to the Registrar, Vidyasagar University, Midnapore for providing me all the administrative cooperation for successful completion of Ph.D. work.

My sincere thanks to all esteemed faculty members of Department of Microbiology and Co-ordinator Professor Chandradipa Ghosh, Dept. of Human Physiology with Community

Health, Vidyasagar University. I am grateful to Professor Keshab Chandra Mondal, Professor Bikash R. Pati and Dr. Pradeep K. Das Mohapatra for their cooperation and support.

I am also thankful to my lab mates and friends, Dr Koushik Das, Dr. Arpita Mandal, Dr. Arpita Patra, Dr. Shreya Mandal, Dr. Suchismita Roy, Miss Mousumi Mitra, Mr. Soumen Paul and Mr. Nirmalya Kumar Sinha for their help in enlighten ways wherever needed. My sincerest gratitude goes to all the staff members of Dept. of Microbiology, Dept. of Nutrition and Dept. of Physiology especially Rathi da, Ganesh da deserve special thanks for their help in diverse ways during the days of my stay in the department.

I am also thankful to all the faculty members of my course work study, especially faculty members of Anthropology Dept. Vidyasagar University for their valuable inputs during course work study.

My special thanks to dear friend and senior Dr. Atanu Adak, IASST, Guwahati, Assam, for his hearty cooperation, important suggestions and necessary assistance. My heartfelt gratitude to my seniors and friends Tanmay da, Saikat da, Suhrid da, Chiranjit da, Suman da, Arijit da, Narattam and Kuntal for their continuous encouragement and active cooperation.

I am also thankful to Defence Institute of Physiology & Allied Sciences and Defence Research and Development Organization (DIPAS-DRDO), Govt. of India, for the financial support in this work.

Before concluding the pleasant task of acknowledgement, I take this opportunity to pay my heartiest gratitude to my family members, especially my parents who made me indifferent from the daily family work and helped me to involve myself in my studies during this period. They made me believe in myself.

Success is sweet because of all of these wonderful people.
