Table 2.1: Estimation of Change in Volume of Sand at Site 1 from 2015 to 2018.....	34
Table 2.2: Estimation of Change in Volume of Sand at Site 2 from 2015 to 2018.....	36
Table 2.3: Estimation of Change in Volume of Sand at Site 3 from 2015 to 2018.....	39
Table 2.4: Estimation of Change in Volume of Sand at Site 4 from 2015 to 2018.....	41
Table 2.5: Granulometric data for sample site 1.....	41
Table 2.6: Granulometric data for sample site 2.....	42
Table 2.7: Granulometric data for sample site 3.....	42
Table 2.8: Granulometric data for sample site 4.....	42
Table 2.9: Statistical analysis for sample site 1.....	43
Table 2.10: Statistical analysis for sample site 2.....	44
Table 2.11: Statistical analysis for sample site 3.....	45
Table 2.12: Statistical analysis for sample site 4.....	45-46
Table 2.13: Hand piston auger data showing soil stratigraphy.....	47
Table 2.14: Swash and Backwash length of sample site 1	51
Table 2.15: Swash and Backwash length of sample site 2.....	51
Table 2.16: Swash and Backwash length of sample site 3	51
Table 2.17: Swash and Backwash length of sample site 4.....	51
Table 2.18: Sediment weights of swash and backwash current.....	51
Table 2.19: Attributes of bioturbation study for Grid A near sample site 4.....	53
Table 2.20: Statistics of creeper's root (Horizontal & vertical).....	55
Table 2.21: Morphodynamic Indices of the sample sites.....	59
Table 2.22: Sediment transportation budget.....	61-62
Table 2.23: Attributes of beach bioturbation survey.....	74
Table 3.1: Estimated Livelihood Diversity Indices.....	94
Table 3.2: Dependency of Livelihood Diversity on varieties of micro physiography on the coastal area.....	98
Table 4.1: Data of cyclone hitting the coastal West Bengal (Source IMD) and verified by field survey.....	104
