<b>List of Abbreviations</b>	<b>i</b>
<b>List of Common Symbols</b>	<b>ii</b>
<b>List of Tables</b>	<b>iv</b>
<b>List of Figures</b>	<b>x</b>
<b>1 General introduction and organization of the thesis</b>	<b>1</b>
1.1 General introduction . . . . .	1
1.2 Basic concepts and terminologies . . . . .	6
1.3 Historical literature review on soft set theory . . . . .	13
1.4 Motivations and objectives of the thesis . . . . .	15
1.5 Organization of the thesis . . . . .	17
<b>2 Consensus measuring and reaching to consensus threshold in fuzzy soft set based group decision-making by using distance measure</b>	<b>23</b>
2.1 Introduction . . . . .	23
2.2 Some basic relevant notions . . . . .	25
2.3 Fuzzy soft set based group decision-making . . . . .	27
2.3.1 Mathematical illustration of the problem . . . . .	27
2.3.2 Optimality criteria . . . . .	28
2.3.3 Solution framework . . . . .	28
2.4 A case study on sustainable supplier selection in a textile industry . . . . .	44
2.5 Comparative discussion . . . . .	50
2.6 Conclusion . . . . .	53
<b>3 Some properties of fuzzy soft groups</b>	<b>55</b>
3.1 Introduction . . . . .	55
3.2 Some basic relevant notions . . . . .	56
3.3 Order of an element of a fuzzy soft group . . . . .	59
3.4 Fuzzy soft cyclic group . . . . .	64

3.5	Conclusion . . . . .	66
<b>4</b>	<b>A new algorithmic approach to linguistic valued soft multi-criteria group decision-making problems using linguistic scale function</b>	<b>67</b>
4.1	Introduction . . . . .	67
4.2	Some basic relevant notions . . . . .	69
4.3	Linguistic valued soft set based multi-criteria group decision-making . . . . .	74
4.3.1	Problem description . . . . .	74
4.3.2	Sun's Algorithm [153] . . . . .	74
4.3.3	Limitations in Sun's approach [153] . . . . .	75
4.4	A new approach to solve linguistic valued soft set based multi-criteria group decision-making problems . . . . .	77
4.4.1	A method for computing the satisfaction level of a decision maker . . . . .	78
4.4.2	A new version of ranking function through the linguistic scale function . . . . .	81
4.4.3	A new definition of similarity measure for linguistic valued sets . . . . .	83
4.4.4	Linguistic valued soft set based approach to multi-criteria group decision-making problems . . . . .	84
4.4.5	Optimality test for linguistic valued soft set based group decision-making problems . . . . .	91
4.4.6	Measure of performance . . . . .	91
4.5	A comparative discussion between Sun's approach and our proposed approach . . . . .	92
4.6	A plant location selection problem for implementation of our proposed methodology . . . . .	94
4.7	Conclusion . . . . .	97
<b>5</b>	<b>Generalized trapezoidal intuitionistic fuzzy soft sets in risk analysis</b>	<b>99</b>
5.1	Introduction . . . . .	99
5.2	Some basic relevant notions . . . . .	101
5.3	Generalized trapezoidal intuitionistic fuzzy soft set . . . . .	105
5.3.1	Some set theoretic operations on GTrIFSS . . . . .	106
5.4	Hamming distance of two generalized trapezoidal intuitionistic fuzzy soft sets . . . . .	109
5.5	A new decision-making approach for solving problems under generalized trapezoidal intuitionistic fuzzy soft environment . . . . .	111
5.6	An application of our proposed method in risk assessment of being effected by diabetes . . . . .	113
5.7	Conclusion . . . . .	117
<b>6</b>	<b>Trapezoidal interval type-2 fuzzy soft stochastic set and its application in stochastic multi-criteria decision-making</b>	<b>119</b>
6.1	Introduction . . . . .	119
6.2	Some basic relevant notions . . . . .	121

6.3	Trapezoidal interval type-2 fuzzy soft stochastic set . . . . .	125
6.4	A novel approach to solve SMCDM problems based on trapezoidal interval type-2 fuzzy soft stochastic set . . . . .	128
6.4.1	SMCDM based on TrIT2FSSS . . . . .	129
6.5	Case study . . . . .	133
6.6	Conclusion . . . . .	140
<b>7</b>	<b>Application of complex fuzzy soft sets in medical diagnosis system through a similarity measure approach</b>	<b>141</b>
7.1	Introduction . . . . .	141
7.2	Some basic relevant notions . . . . .	144
7.3	Similarity measure approach to complex fuzzy soft sets . . . . .	146
7.3.1	Ratio similarity measure to complex fuzzy sets . . . . .	146
7.3.2	Ratio similarity measure to complex fuzzy soft sets . . . . .	148
7.4	Aggregation operators on complex fuzzy soft sets . . . . .	151
7.5	Complex fuzzy soft multi-expert decision-making . . . . .	156
7.5.1	Problem description . . . . .	156
7.5.2	Optimality criteria . . . . .	157
7.5.3	Solution framework of our considered multi-expert decision-making . . . . .	157
7.6	Experimental analysis . . . . .	165
7.7	Comparative discussion and sensitivity analysis . . . . .	168
7.7.1	Comparative analysis . . . . .	168
7.7.2	Sensitivity analysis . . . . .	173
7.8	Conclusion . . . . .	174
<b>8</b>	<b>A soft set based VIKOR approach for some decision-making problems under complex neutrosophic environment</b>	<b>179</b>
8.1	Introduction . . . . .	179
8.2	Some basic relevant notions . . . . .	181
8.3	Some operations on complex neutrosophic sets . . . . .	183
8.4	Score function of a complex neutrosophic number . . . . .	186
8.5	Some operations on complex neutrosophic soft sets . . . . .	188
8.6	Decision-making problems based on soft set theory under complex neutrosophic environment. . . . .	191
8.6.1	Complex neutrosophic soft decision-making for single decision maker based problems . . . . .	191
8.6.2	Determination of the weights of the parameters . . . . .	198
8.6.3	Complex neutrosophic soft decision-making for multiple decision makers based problems . . . . .	200
8.7	Case study . . . . .	205

---

8.7.1	An application of CNSVISDM-approach in manager selection of a company . . . . .	205
8.7.2	An application of CNSVISDM-approach in sustainable manufacturing material selection of an automotive industry . . . . .	209
8.7.3	An application of CNSVIMDM-approach in medical science . . . . .	212
8.8	Comparative study and discussion . . . . .	217
8.8.1	Sensitivity analysis based on the parameter $\theta$ . . . . .	217
8.8.2	Comparative analysis of our proposed approach . . . . .	219
8.9	Conclusion . . . . .	223
<b>9</b>	<b>Summary and future research works</b>	<b>225</b>
9.1	Summary of the thesis . . . . .	225
9.2	Future research scope . . . . .	227
<b>10</b>	<b>Bibliography</b>	<b>229</b>
10.1	Appendices . . . . .	247
10.1.1	Appendix A . . . . .	247
10.1.2	Appendix B . . . . .	247
10.1.3	Appendix C . . . . .	248
