

## List of Tables

**Table-2.1:** The values of critical Grashof number  $Gr_0 \times 10^{-3}$  at the cold wall

**Table-2.1:** The values of critical Grashof number  $Gr_0 \times 10^{-3}$  at the cold wall

**Table-2.2:** The values of critical Grashof number  $Gr_1 \times 10^{-3}$  at the hot wall

**Table-3.1:** Shear stresses at  $\eta = 0$  with  $\omega = 9$

**Table-3.2:** Values of amplitude  $R_1$

**Table-3.3:** Values of amplitude  $R_2$

**Table-3.4:** Values of  $\tan \phi_1$

**Table-3.5:** Values of  $\tan \phi_2$

**Table 4.1:** The rate of heat transfer at the channel plates ( $\eta = 0, 1$ ) when  $K^2 = 5$ ,  
 $\theta_a = 0.1$ ,  $\lambda = 1$ ,  $n = 2$ ,  $n\tau = \pi/4$

**Table 5.1:** Shear stress  $-f''(0)$  for different values of  $M^2$  when  $C = 0$ ,  $\lambda = 0$  and  
 $Da = \infty$  compared to previous results

**Table 5.2:** Shear stress  $-f''(0)$  and the rate of heat transfer  $\theta'(0)$  at the sheet surface  
( $\eta = 0$ )
