- 4) Sangita Hoxra 15.05.15

Agenda: To discuss on academic & administrative facilities in the Department.

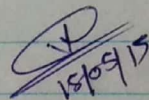

1) As the Computer lab of the department having poor ventilation, it is very difficult to work/practice during their practical (Computer lab work). ~~resulting~~ Poor ventilation causing too much suffocation and during summer it is very difficult to do the lab work as well as lab based practical exam as it is too hot. Again computers are also not working for long ^{time} in ~~this~~ such temperature. Thus, students are demanding for ~~the~~ installation of A/C in the Computer lab. to get rid of ~~the~~ suffocating environment ~~from~~ of the lab as the lab does not have any window for air ventilation.

② There is lack of ^{effective} space in the Cartographic ^{lab.}, as well as soil lab. for practice and to ~~conduct~~ give exam as in the same lab seminar library is there. Students demand for sufficient space for practices and for exam.
