4. Anupam Mondal 16/2/17
5. Sonik Mauna 16.02.17.
6. Esha Roy 16.02.17

Recommendations:

1. Notes of classes (PPT. format etc) are requested to be distributed among the students.
2. Teaching of some of the faculty members needs improvement. They should explain their topics in details and in easily understandable format.
3. Teachers should explain practical topics first before experiment.
4. Work load for teaching & learning should be evenly distributed through out the semester.
5. Computers in BIF laboratory needs to be repaired and should be available for the students use.
6. Number of faculty in the department to be enhanced.
7. Campusing for students to be made regularly.
8. During practical teachers should be available to the students.

9. Nanotechnology part of 4th semester to be covered before end of semester.

10. Students are requested to enter into the class in time. They are also requested to maintain cleanliness in the classroom.

11. A guardian meeting will be held in the department to discuss about different suggestions for improvement of departmental activities. Selected students are requested to tell their guardians to be present in the meeting.
