## List of figures

Description	Page no.
Fig.5.2. 1: horizontal display- rotary	37
Fig 5.2.2: vertical display- rotary	38
Fig 5.2.3: Semicircular display- rotary switch	38
Fig 5.2.4: Intensity testing display-rotary switch unit	38
Fig5.2.5: Semicircular display with spatially aligned rotary switches unit	39
Fig.5.2. 6: horizontally and vertically aligned rocker switch-electric light units	40
Fig 5.2.7: digital display-rotary switch unit	40
Fig 5.2.8: digital display-horizontally sliding switch	41
Fig 5.2.9: digital display-vertically sliding switch unit	41
Fig 5.2.10: Digital display with spatially aligned rotary switch	42
Fig 5.7.3.1: Measurement of thermal parameters	48
Fig. 5.8.1: Colour Chart	49
Fig 5.9.1: error testing with the existing gas oven	51
<b>Fig 6.3.1</b> : In two Indian interfaces different colour coding used for similar ("on" and	77
Toff'') response	150
<b>Fig 6.10.1:</b> Schematic representation of the conventional two burner gas knob operation	159
system (based on anticiockwise to increase and anticiockwise to decrease principle in one	
$\mathbf{F} = (10 2, \mathbf{S}_{1})$	164
<b>Fig 0.10.2:</b> Schematic diagram of modified gas knob positions for operating gas oven (head on "outi algorithmic to increase flow" minimized	104
(based on anti clockwise to increase flow principle)	100
<b>Fig 6.10.3:</b> Operation of modified gas oven	115
<b>Fig: 6.5.1</b> : Planes where the rotary switches situated on the digital display unit in this study	115
<b>Fig: 6.5.2:</b> Planes where the rotary switches situated on the analog display unit in this study	115
