Resolutions :

- \* 1. The proceeding of the last meeting was confirmed.

② 2nd Semester field survey is under syllabus (PHY-295.1) of Human Physiology comprising 25 mark (one unit).

It is actually very essential for the students to acquaint with the community people life <sup>different</sup> ~~styles~~ from various environmental conditions, occupational <sup>background</sup>, ethnicity and cultural background.

It is also required to be know the people health and physiology beyond the classroom teaching and laboratory practical work. For this in each year the students are used to go in field survey. This is the <sup>brief</sup> justification for <sup>remaining</sup> this unit in our syllabus.

③ The time of the survey is proposed to be in the 2nd week of March (around for 7 days). The time ~~will~~ may ~~be~~ vary according to availability of railway ~~at~~ reservation of 45 persons.

③ The subcommittee ~~of~~ of the organising committee of the Int-Sem ~~is~~ are working for the ~~at~~ Conference.

④ Int seminar and reunion will be ocemed <sup>parallelly</sup> on 22nd January ~~and~~ without doing any interference in the International Conference.
