

List of Tables

	Page No.
Table 1.1: Landsat 5 (TM) Band Specification (Image acquisition date-21.11.1990; Path 139, Row 45).....	16
Table 1.2: Band characteristics of Sentinel-2 MSI image (Imagery date-16.12.2016 and 16.03.2017).....	19
Table 1.3: Description of the soil taxonomic classes.....	23
Table 2.1: Chronology of coastal formations in the study areas of Ramnagar-I and II Administrative Blocks.....	37
Table 2.2: The coastal chenier stage formations proposed by Maiti, (2013) for the reconstruction of the past.....	40
Table 2.3: OSL dating of coastal sediments from the surface of beach ridge cheniers by Pattanayak et al, 2014	41
Table 2.4: The assessment of hydro-morphodynamics of the past landforms on the basis of modern available data.....	44
Table 2.5: Relative wave characters of the modern and ancient shoreline environment (estimated from the modern records).....	45
Table 2.6: Estimation of tidal ranges from beach profile transects of Pre-Monsoon phase (2013-2014).....	49
Table 2.7: Estimation of tidal ranges from beach profile transects of Post-Monsoon phase (2013-2014).....	50
Table 2.8: Comparative study of Pre and Post-Monsoon profiles (2013-2014).....	51
Table 2.9: Sector wise tidal prism estimation in 2017.....	52
Table 2.10: Temporal changes of tidal prism in the coastal wetlands of Digha-Junput sectors.....	54
Table 3.1: Species diversity estimation through Shannon Diversity Index	77
Table 3.2: Spatial distribution of vegetation diversity along the different landscape units.....	78
Table 3.3: Calculation of areas in diverse morphological units and plant ecology.....	80
Table 3.4: Percentage of area occupied by the plant ecology in different morphological units.....	81
Table 3.5: Results of Hierarchical Cluster Analysis of transect- A.....	83
Table 3.6: Results of Hierarchical Cluster Analysis of transect- B.....	84

Table 3.7:	Results of Hierarchical Cluster Analysis of transect- C.....	84
Table 4.1:	Calculation of vegetation biomass from field survey data (November, 2017).....	96
Table 4.2:	Grid wise calculation of vegetation biomass and quantity of fuel wood.....	99
Table 4.3:	Ecological and economical services of coastal vegetated surface/ha/year...	100
Table 4.4:	Estimation of ecological and economical valuation in Rs./ha/year.....	100
Table 4.5:	Ecological and economical valuation of agricultural land in Rs./ha/year....	102
Table 4.6:	Estimation of yearly production in village pond fishing.....	103
Table 4.7:	Estimation of yearly production in commercial fishing (Plate 4.3).....	103
Table 4.8:	Estimation of yearly production of subsistence fishing in the coastal wetlands (Plate 4.4).....	104
Table 4.9:	Estimation of yearly production in open marine fishing (Plate 4.5).....	105
Table 4.10:	Ecological valuation of different fish farm plots in Rs./ha/year.....	107
Table 4.11:	Ecological and economical valuation of coastal landscapes units/ha/year...	107
Table 4.12:	Spatial change of land use / land covers between 1990 and 2017.....	111
Table 4.13:	Change detection matrix between 1990 and 2017.....	113
Table 4.14:	Validation between digital classification and vector classification of LU / LC in 2017.....	115
Table 4.15:	Estimation of population density through Census data, 2011.....	119
Table 4.16:	Estimation of settlement density through DBSCAN model.....	121
Table 4.17:	Calculation of area in different environmental zones.....	123
