
List of Figures

- Figure-2.1 Membership function of a GFN \tilde{A}
Figure-2.2 Membership function of a LFN \tilde{A}
Figure-2.3 Membership function of TFN \tilde{A}
Figure-2.4 Membership function of PFN \tilde{A}
Figure-2.5 Membership function of TrFN \tilde{A}
Figure-2.6 Fuzzy logic system
Figure 2.7 Fuzzy extension principle
Figure 2.8 Measure of $\text{Pos}(\tilde{a} \geq \tilde{b})$
Figure 2.9 Measure of $\text{Pos}(\tilde{a} \leq \tilde{b})$
Figure 2.10 Measure of $\text{Pos}(\tilde{a} \leq \tilde{b})$
Figure 2.11 Measure of $\text{Pos}(a \simeq b)$
Figure 2.12 Pos. / Nec. / Cre. weighted fill rate
Figure 2.13 Order relation of three equal spread TFN
Figure 2.14 Order relation of two equal mean TFN
Figure 2.15 Order relation of three fuzzy number
Figure 2.16 Order relation of three fuzzy number
Figure 2.17 Order relation of two different spread TFN
Figure 2.18 FOU of $\tilde{\eta}$
Figure 2.19 Representation of flowchart of MOGA
Figure 2.20 GA process for fuzzy inference model
Figure 2.21 Graphical representation of fuzzy transportation model \rightarrow crisp transportation model
Figure 4.1 Design of the proposal problem
Figure 4.2 Representation of optimal transportation for $\alpha = 0.5$
Figure 6.1 Membership function of Distance and corresponding unit transportation cost
Figure 6.2 Membership function of quality and corresponding unit transported amount
Figure-6.3 Output of transportation amount for example 6.2
Figure 6.4 Output the cost related to quality of item and the distances for example-6.2
Figure 7.1 The first figure represents of membership function of the availability first item (taken as input) and corresponding membership function of that of second item (obtained by fuzzy logic) presents in second figure
Figure 7.2 The first figure represents of membership function of the demand first item (taken as input) and corresponding membership function of that of second item (obtained by fuzzy logic) presents in second figure
Figure 9.1 Total supply, total demand total conveyance
Figure 9.2 The membership function of the objective functions
