

LIST OF TABLES

1.1	Sample Frame	21
2.1	Migration Statistics by the Place of Last Residence	31
2.2	Volume and Trend of Migration Classified by Place of Last Residence in West Bengal, 1991 to 2011	31
2.3	Trend of Male Migration Classified by Place of Last Residence in West Bengal	32
2.4	Trend of Female Migration Classified by Place of Last Residence of West Bengal, 1991 to 2011	33
2.5	Distribution of Male & Female Migration of West Bengal Classified by Place of Last Residence, 1991 to 2011	33
2.6	Reasons for Migration, Moved to Rural Area	35
2.7	Reasons for Migration, Moved to Urban Area	36
2.8	Growth Rate of Migration of West Bengal During 1991-2011	36
2.9	Rural to Rural Migration Classified by Place of Last Residence in West Bengal	38
2.10	Rural to Urban Migration Classified by Place of Last Residence of West Bengal	39
2.11	Urban to Rural Migration Classified by Place of Last Residence in West Bengal	39
2.12	Urban to Urban Migration Classified by Place of Last Residence in West Bengal	40
2.13	Growth Rate of Cross-District Migration of West Bengal During 1991-2001	41
2.14	Comparison of Annual Growth Rates of Rural-Rural and Rural-Urban In-migration in Different Destination Districts During 1991 to 2001	43
2.15	Comparison of Annual Growth Rates of Rural-Rural and Rural-Urban Out-Migration in Different Source Districts During 1991 to 2001	44
2.16	Comparison of Annual Growth Rates of Urban-Rural and Urban-Urban in-migration in Different Destination Districts During 1991 to 2001	46
2.17	Comparison of Annual Growth Rates of Urban-Rural and Urban-Urban Out-Migration from Different Source Districts During 1991 to 2001	47
2.18	Inter-Districts Male In and Out Migration to Rural and Urban Areas in 1991	49
2.19	Inter-Districts Male In and Out Migration to Rural and Urban Areas in 2001	50
2.20	t-Test of Equality of Mean Between Male In-migration and Male Out-migration in 1991	51
2.21	t-Test: Male In-migration v/s male Out-migration in 2001	52
2.22	t-Test: Comparison Between Backward and Developed Districts, 1991	53

2.23	t-Test: Comparison Between Backward and Developed Districts, 2001	53
3.1	Summary Results of Pooled (1991 and 2001) Regression Equations for the Determinants of Inter-Districts Male In-migration	61
3.2	Distribution of out-migrants by Sector in West Bengal, 2007-08	62
3.3	Distribution of Migrant Households and Member of Migrants according to Sex Affiliation of Household Head in West Bengal, 2007-08	62
3.4	Number and Percentage share of Rural and Urban Out-migrants across Districts of West Bengal, 2007-08	64
3.5	Distribution (Percentage Share) of migrants of Less Developed and Developed Districts of West Bengal, 2007-08	65
3.6	Number and Percentage Share of Migrant Households and Out-migrants by Sectors in West Bengal, 2007-08	65
3.7	Percentage Share of Out-migrants and Out-migrant Households by the household size in West Bengal, 2007-08	66
3.8	Distribution (<i>Percentage share</i>) Migrant Households by the Social Castes in West Bengal, 2007-08	66
3.9	Distribution (<i>Percentage Share</i>) of Migrants by the Social Castes in West Bengal, 2007-08	67
3.10	Distribution (<i>Percentage Share</i>) of Migrant Households by the Size Class of Land Holding in West Bengal, 2007-08	67
3.11	Percentage Share of Migrant Households and Out-migrants according to their Landholding Pattern	68
3.12	Distribution of Out-migrants by the Level of Education in West Bengal, 2007-08	68
3.13	Notation, Specification and Descriptive Statistics of Variables Used in Regression Analysis at the Household Level in Probit regression analysis	72
3.14	Results of Probit regression for determinants of migration across Households in West Bengal	76
3.15	Calculation of <i>Marginal Effects</i> for Estimated Probit Model across Households in West Bengal	78
4.1	Percentage Share of Remittance Received by the District Level in West Bengal	82
4.2	Percentage of Households Received Remittance across Districts of West Bengal, 2007-08	84
4.3	Test of Proportion for the Differences of Remittance Received across Different Indicators	86
4.4	Different Descriptive Statistics of With and Without Remittance-Recipient Households	87
4.5	Notation, Specification and Descriptive Statistics of Variables Used in Regression Analysis at the Household Level used in Probit Regression Analysis	89
4.6	Results of Probit regression for Determinants of Remittance Received by the Households in West Bengal	93

4.7	Results of Probit Regression for Determinants of Remittance Received by the Households in the Relatively Less Developed Districts in West Bengal	96
4.8	Results of Probit Regression for Determinants of Remittance Received by the Households in the Relatively Less Developed Districts in West Bengal	97
4.9	Distribution (percentage share) of Use of Remittances by the Items in West Bengal, 2007-08	98
4.10	Distribution of use of Remittances by the Items for the poor (lower quintile class) vis-à-vis rich (upper quintile class) Income Groups in West Bengal, 2007-08	100
4.11	Average Monthly Budget Share of Different Household Expenditure with Remittance Received Household vis-à-vis Without Remittance Received Households	101
4.12	Average Monthly Budget Share of Different Household Expenditure with Remittance Received Household vis-à-vis Remittance Non-received Households in West Bengal, 2007-08	102
4.13	Impact of remittance on Influence of Poverty and Poverty Gap in Urban Area vis-à-vis Rural area in West Bengal, 2007-08	103
4.14	Impact of Remittance on the Incidence of Poverty and Poverty Gap in Developed Districts vis-à-vis Less Developed Districts in West Bengal, 2007-08	104
4.15	Impact of Remittances on the Incidence of Poverty and Poverty Gap for Social Classes in West Bengal, 2007-08	104
4.16	Impact of remittance on the incidence of poverty and poverty gap for different land holding classes in West Bengal, 2007-08	105
4.17	Impact of remittance on the incidence of poverty and poverty gap for the male vis-à-vis female headed household in West Bengal, 2007-08	105
4.18	Notation, Specification and Descriptive Statistics of Variables Used in Regression Analysis at the Household Level used	107
4.19	Result of Heckman Selection Model - two-step Estimates for Poverty-gap and Poor or Not-poor in West Bengal, 2007-08	111
4.20	Result of Heckman selection model - two-step estimates for poverty-gap and poor or not poor (regression model with sample selection) in relatively <i>less developed districts</i> in West Bengal	113
4.21	Result of Heckman selection model - two-step estimates for poverty-gap and poor or not poor (regression model with sample selection) in relatively <i>developed districts</i> in West Bengal	114
5.1	Demographic Features of Sample Blocks, 2011	118
5.2	Demographic Features of Sample Villages, 2011	120
5.3	Distribution of Asset Structure in Sample Households	123
5.4	Distribution of Operational Landholding Size	124
5.5	Distribution of Households according to Size of Homestead Land	124
5.6	Percentage Share of Sources of Livelihood Among Migrant Households	125

5.7	Distribution of Migrants by Age Group	126
5.8	Distribution of Migrants by Educational Attainments	127
5.9	Distribution of Migrants by their Place of Destination	127
5.10	Distribution of Migrants by Reason for Migration (NSSO Classification)	128
5.11	Distribution of other Influencing Factors of Migration	129
5.12	Distribution of Migrants by their Duration of Migration	130
5.13	Distribution of Employment Status of Migrants	131
5.14	Distribution of Migrant Workers by their Working Condition at their Destination Place	131
5.15	Percentage Shares of Migrants by their Employment Category	132
5.16	Percentage Shares of Income Distribution of Migrant Worker	133
5.17	Distribution (Percentage shares) of Payment and Benefits Received by Migrants	134
5.18	Pattern of Remittance Sent Per Month by the Migrant Worker	135
5.19	Notation, Specification and Descriptive Statistics of Variables Used in Regression Analysis for the Migrant Households	139
5.20	Income Determination of Migrant Households: Result of Regression Equation	141
5.21	Notation, Specification and Descriptive Statistics of Variables Used in Regression Analysis at the Migrant Household Level	145
5.22	Determination of the Remittances: Result of Regression Equation	146
5.23	The Incidence and Depth of poverty of Migrant Households with and without Remittances	147
5.24	Notation, Specification and Descriptive Statistics of Variables Used in Regression Analysis at the Migrant Household Level	148
5.25	Probit Estimates of Poverty of Migrant Households	149
5.26	Calculation of Marginal Effects for Estimated Probit Model	149
