

Acknowledgement

It is a vital moment of great pleasure and satisfaction for me to thank all those who helped me and touched my endeavours in their own way and would like to take this opportunity to acknowledge all of them for their unconditional help and continuous support. First and foremost, I would like to express my deepest gratitude to my research supervisor and mentor **Prof. Debidas Ghosh, Professor and Head**, Bio-Medical Laboratory Science and Management, Vidyasagar University, for initiating me into this work and also for his wise, able and invaluable guidance, untiring helpful suggestions, necessary assistance, co-operation, and supervision throughout my study. I thank you again Sir for all the efforts you have taken to fasten my work. Sir, your way of guidance at any problem and impressive work ethics are unmatched and your efforts to bring simplification and perfection in anything you do are really magnificent. Sir, I admire you as one of the most wonderful teacher, guide, supervisor I ever met and I say I am fortunate enough that I worked with you.

I desire to freely express my grateful appreciation and indebtedness to the **Hon'ble Vice-Chancellor**, Prof. Ranjan Kumar Chakraborty and respected Dr. Jayanta Kishore Nandi, Registrar, Vidyasagar University for extending the necessary Institutional facilities for this investigation.

I am also grateful to Dr. Sandip Chattopadhyay, Dr. Chhanda Mallick and Dr. Surajit Das Assistant Professor, Department of Bio-Medical Laboratory Science and Management, Vidyasagar University for his kind assistance and uninterrupted advice for completion of my thesis work

I sincerely thanks to Mr. Anwar Ali, Laboratory Technician and Mr. Sajal Bera, Laboratory Assistant of the Department of Bio-Medical Laboratory Science & Management, Vidyasagar

University for their various assistance and for providing me necessary instrumental facilities and extending valuable technical support during my study.

This study would have never been possible without the help and cooperation of Prof. M.M. Misro, Professor, Dept. of Reproductive Biomedicine, National Institute of Health & Family Welfare (MOHFW), New Delhi and Prof. B.D. Banerjee, Professor, Department of Biochemistry, The University College of Medical Sciences and GTB Hospital, Delhi. I thank them profusely for their invaluable support and assistance during my modern instrumental experiments.

Special thanks are duly expressed to my colleagues with whom I have interacted on many occasions – MS. Farhin Ara, SRF, Moulana Azad National Fellowship, Mrs. Riya Sarkar, JRF, INSPIRE Fellowship, Mrs. Sujata Bhowmik Ganguly, DST women Scientist B, Ms. Dipanitta Mitra, Mr. Prabal Ghosh, Mr. Ranjan Guchhait, for their meticulous assistance and cooperation in my work.

I must extend my grateful thanks to my several colleagues, friends and other well wishers, thanking to whom may not possible individually though they played a very supportive role during my study.

I do express my thanks and regards to a good number of scientists of different countries who have taken pains to mail their copies of published works in response to my request.

I express my deepest gratitude to the Editorial Board of different National and International Journals, without whose valuable criticism and suggestions it was not so easy to plan my experimental schedules.

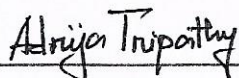

My heartiest thanks to all the staff of Library and Finance Section for their help in issuing relevant journals, text books from Central Library of our Institute and providing funds during my work. Special thanks are given to all the security staff of Vidyasagar University for their

I especially want to record my indebtedness, my heartiest love to my beloved KITTY and groups for their continuous presence, without them without I would hardly finish my work.

I must pay my deepest regards and sincere thanks to my parent's and family members for their great sacrifice, honest support, inspiration and motivation.

Last but not the least, I like to express my respect from the inmost corner of my heart to those well wishers who are not mentioned specifically by name at this very moment.

Date: 28/06/2019

Adrija Tripathy, M.Sc.
