

List of Tables

	Page No.
Table 1.1: Period of geological formations with material compositions within the Purba Medinipur district based on Quaternary geological map of GSI.....	6
Table 1.2: Different types of geomorphological features and their aerial extent within the Purba Medinipur district.....	7
Table 1.3: Soil types of Purba Medinipur district.....	11
Table 1.4: Diversity in land use and land cover types of Purba Medinipur district.....	13
Table 1.5: Different Satellite data used in the study.....	19
Table 1.6: Different types of maps, other secondary and primary data used in the study.....	19
Table 2.1: Geomorphological diversities at Digha-Mandarmani coastal stretch.....	29
Table 2.2: Geomorphological diversities at Contai.....	30
Table 2.3: Geomorphological diversities at Haldia.....	31
Table 2.4: Changing pattern of different land use and land cover at Digha (1991-2018).....	38
Table 2.5: Land use and land cover conversion types during 1991-2018 in Digha.....	40
Table 2.6: Temporal conversion types of land use and land cover areas of Digha.....	41
Table 2.7: Changing pattern of different land use and land cover types in Contai during 1991 – 2018.....	45
Table 2.8: Land use and land cover conversion types during 1991-2018 in Contai.....	46
Table 2.9: Temporal conversion types of land use and land cover areas of Contai.....	47
Table 2.10: Changing pattern of different land use and land cover types at Haldia during 1991 – 2018.....	50
Table 2.11: Land use and land cover conversion types during 1991-2018 in Haldia.....	52
Table 2.12: Temporal conversion types of land use and land cover areas of Haldia.....	54
Table 2.13: Urban sprawling at Digha during 1991 – 2018.....	57
Table 2.14: Urban sprawling at Contai municipal area from 1991 – 2018.....	59
Table 2.15: Urban sprawling at Haldia municipal area from 1991 – 2018.....	60
Table 3.1: Total population, density distribution, year-wise growth rate and projected population for 2021 of Digha.....	65
Table 3.2: Total population, density distribution, year-wise growth rate and projected population for 2021 of Contai.....	66
Table 3.3: Total population, density distribution, year-wise growth rate and projected population for 2021 of Haldia.....	68

Table 3.4:	Educational status at three different urban centres with significant rate of increase of female literacy.....	77
Table 3.5:	Functions or activities under main working group of three different urban centres.....	78
Table 3.6:	Census year-wise distribution of working population at three different urban centres.....	87
Table 4.1:	Monthly and annual frequency of different cyclonic events at the Bay of Bengal during 1891 – 2018 to show the vulnerability status of the coastal belt.....	100
Table 4.2:	Periodic frequency of cyclonic events of depression (D), cyclonic storm (CS) and severe cyclonic storm (SCS) in the Bay of Bengal for the span of 128 years.....	103
Table 4.3:	Net Shoreline Movement (NSM) and Linear Regression Rate (LRR) model-derived shoreline shifting nature (erosion and accretion) along the sections of Medinipur coast.....	110
Table 4.4:	Net Shoreline Movement (NSM) and Linear Regression Rate (LRR) model-derived bankline shifting nature (erosion and accretion) along the different river banks in the Medinipur littoral tract.....	110
Table 5.1:	Groundwater status and their quality of different parameters within the study area.....	130
Table 5.2:	Ambient air quality at the different sites of Haldia municipal area during 2005-2006.....	133
Table 5.3:	Area under different CRZs in the Digha-Mandarmani coastal stretch as per CRZ- 2011.....	136
Table 5.4:	Risk variables and assigned risk rating for estimation of coastal vulnerability (index) of Digha.....	138
Table 5.5:	Nature of vulnerability, assigned risk rating and Coastal Vulnerability Index (CVI) in different zones of Digha.....	139
Table 5.6:	Risk variables and assigned risk rating for estimation of coastal vulnerability (index) of Contai.....	141
Table 5.7:	Nature of vulnerability, assigned risk rating and Coastal Vulnerability Index (CVI) in different zones of Contai.....	143
Table 5.8:	Risk variables and assigned risk rating for estimation of coastal vulnerability (index) of Haldia.....	144
Table 5.9:	Nature of vulnerability, assigned risk rating and Coastal Vulnerability Index (CVI) in different zones of Haldia.....	146
