

<i>List of figures</i>		<i>Page</i>
1.1	Prevalence and prediction of elderly (Age > 60 years) population in India and world	4
1.2	Prevalence and prediction of elderly (Age > 80 years) population in India and world	4
1.3	Diagram of conceptual model of loneliness and physical well-being in older adults	8
2.1	Map showing the location of Paschim Medinipur district in West Bengal and India	37
2.2	Map showing study area in Midnapore town	42
3.1.1	Scatter diagram of age and depression score of males, with best fit line	77
3.1.2	Scatter diagram of age and depression score among the females with best fit line	77
3.1.3	Scatter diagram of age and Cognitive function (MMSE) score of male study participants with best fit line	79
3.1.4	Scatter diagram of age and Cognitive function (MMSE) score of female study participants with line of best fit	80
3.1.5	Scatter plot of age and loneliness (UCLA loneliness scale) score of male study participants with lines of best fit	82
3.1.6	Scatter diagram of age and loneliness (UCLA loneliness scale) score of female study participants with lines of best fit	82
3.1.7	Scatter plot of age and Nutritional status (MNA) score of male study participants with lines of best fit	84
3.1.8	Scatter diagram of age and Nutritional status (MNA) score of female study participants with lines of best fit	84
3.1.9	Scatter diagram of age and Quality of life (GHQ-28) score of male study participants with lines of best fit	87
3.1.10	Scatter diagram of age and Quality of life (GHQ-28) score of female study participants with lines of best fit	87
