

List of Graphs

<u>Contents</u>	<u>Page No.</u>
Graph 1: Graphical representation of the seasonal variation in protein concentration in the pollen of <i>Datura metel</i>	70
Graph 2: Graphical representation of the molecular weights of the proteins of immature and mature pollen of <i>Datura metel</i>	75
Graph 3: Graphical representation of the molecular weights of allergenic protein fractions of <i>Datura metel</i>	78
Graph 4: Graphical representation of the concentration of pollen proteins of <i>Datura stramonium</i> at stages of maturity	82
Graph 5: Graphical representation of the molecular weight of immature & mature pollen proteins of <i>Datura stramonium</i>	86
Graph 6: Graphical representation of the molecular weights of the allergenic protein fractions of <i>Datura stramonium</i>	89
Graph 7: Graphical representation of the concentration of pollen proteins of <i>Datura inoxia</i> at different stages of maturity	92
Graph 8: Graphical representation of the molecular weight of immature & mature pollen proteins of <i>Datura inoxia</i>	96
Graph 9: Graphical representation of the molecular weights of the allergenic protein fractions of <i>Datura inoxia</i>	99
Graph 10: Graphical representation of the protein concentration by mature and immature pollen of <i>Datura metel</i> , <i>Datura inoxia</i> and <i>Datura stramonium</i>	115
Graph 11: Graphical representation of the SDS-PAGE protein profile of the pollen of <i>Datura metel</i> , <i>Datura stramonium</i> and <i>Datura inoxia</i> .	117
