|  |       |
|--|-------|
| 1. Abbreviations   | 01-03 |
| 2. Abstract  | 04-06 |
| 3. Introduction and Review of Literature                       | 07    |
| 3.1 Beginning era of immunology                                | 07    |
| 3.2 Innate and Adaptive immunity                               | 08-11 |
| 3.3 Leishmaniasis  | 11    |
| 3.4 Epidemiology and geographical distribution                 | 12    |
| 3.5 Life cycle of Leishmania                                   | 13-14 |
| 3.6 Types of Leishmaniasis                                     | 15-16 |
| 3.7 Species of Leishmania and their clinical outcome           | 17    |
| 3.8 CD40 and Leishmania  | 18-19 |
| 3.9 Vaccine development against Leishmania so far              | 19-28 |
| 3.10 MAP Kinase pathway and signaling                          | 28-29 |
| 3.11 Structural classification of MAP Kinases                  | 30    |
| 3.12 MAPK and Immune system                                    | 30-31 |
| 3.13 Leishmanial MAP Kinase and their role inside the parasite | 32    |
| 3.14 List of MAP Kinase in Leishmania                          | 33    |
| 3.15 IL-7 and Signaling  | 34-35 |
| 3.16 Role of IL-7 in Leishmania infection                      | 35-36 |
| 4. Aims and objectives   | 37    |
| 5. Materials and methods                                       | 38-56 |

|                         |        |
|-------------------------|--------|
| 6. Results              | 57-78  |
| 7. Discussion           | 79-83  |
| 8. Summary              | 84-86  |
| 9. Conclusion           | 87     |
| 10. Conference Attended | 88     |
| 11. References          | 89-104 |
| 12. Publications        | 105    |
