

LIST OF FIGURES

Figure No	Figure Title	Page No
1.	HPLC Chromatogram for the quantification of phenolic acids in <i>W.wallichii</i>	35
2.	UV-vis spectra of HAuCl_4 & WW-AuNPs at different concentrations	37
3.	Mechanism of formation & stabilization of AuNPs by the phytochemicals present in the leaf extract of <i>W.wallichii</i>	39
4.	TEM, EDX, SAED images of AuNPs obtained from the leaf extract of <i>W.wallichii</i>	40
5.	XRD pattern of stable WW-AuNPs using the leaf extract of <i>W.wallichii</i>	41
6.	HPLC Chromatogram for the quantification of phenolic acids in <i>R.ellipticum</i>	65
7.	UV-vis spectra of HAuCl_4 & RE-AuNPs at different concentrations	67
8.	Mechanism of formation & stabilization of AuNPs by the phytochemicals present in the leaf extract of <i>R.ellipticum</i>	69
9.	TEM, EDX, SAED images of AuNPs obtained from the leaf extract of <i>R.ellipticum</i>	70
10.	XRD pattern of stable RE-AuNPs using the leaf extract of <i>R.ellipticum</i>	71
11.	HPLC Chromatogram for the quantification of phenolic acids in <i>B.serrata</i>	91
12.	UV-vis spectra of HAuCl_4 & BS-AuNPs at different concentrations	93
13.	Mechanism of formation & stabilization of AuNPs by the phytochemicals present in the fruit extract of <i>B.serrata</i>	95
14.	TEM, EDX, SAED images of AuNPs obtained from the fruit extract of <i>B.serrata</i>	96
15.	XRD pattern of stable BS-AuNPs using the fruit extract of <i>B.serrata</i>	97
