

TABLE OF CONTENTS

Contents	Pages
Thesis Abstract	i
Chapter 1: General Introduction	1-19
Part A: Asthavarga plants, terpenoids and sterol based natural product	
1.1 Astavarga	2
1.2 Terpenoids and sterol based natural product	5
Part B: Self-Assembly and Supramolecular Gel	
1.3 Self-Assembly	10
1.4 Gel	12
1.5 References	16
Chapter 2: Chemical investigation on Astavarga plants and study of their anti-oxidant property	20-47
2.1 Introduction	21
2.2 Astavarga plants	22
2.3 Plant collection	24
2.5 Isolation of Stigmasterol from kakoli	26
2.5.1 Extraction and isolation	27
2.5.2 Result and discussion	28
2.6 Isolation of Erucic acid from jeevak	35
2.6.1 Experimental procedure	36
2.7 Antioxidant property of Astavarga plants	42
2.8 Conclusion	45
2.9 References	46

Chapter 3: Self-assembly study of Stigmasterol in organic liquids.	48-78
3.1 Introduction	49
3.2 Result and Discussion	52
3.2.1 Extraction, Purification and Isolation of stigmasterol	52
3.2.2 Study of self-assembly properties	53
3.2.3 Morphological Characteristics of the self-assemblies	58
3.3 Conclusion	70
3.4 Materials	73
3.5 References	78
Chapter 4: Vesicular Self-Assembly of Crotoembraneic Acid	79-104
4.1 Introduction	80
4.2 Result and Discussion	82
4.2.1 Plant material	82
4.2.2 Isolation and Purification of crotoembraneic acid	82
4.2.3 Properties of crotoembraneic acid	84
4.2.4 Self-assembly study	84
4.2.5 Morphology Studies	85
4.2.6 Application of the self-assembly of Crotoembraneic acid	95
4.3 Conclusion	99
4.4 Experimental Section	99
4.5 References	104
Publications	105-109
