<b>Chapter-1</b>	<b>1.0</b>	<b>Introduction</b>	<b>1-6</b>
<b>Chapter-2</b>	<b>2.0</b>	<b>Review of literature</b>	<b>7</b>
	<b>2.1</b>	<b>Arsenic, a major water pollutant: Arsenic contamination in drinking water at global basis</b>	<b>7</b>
	<b>2.1.1</b>	<b>Arsenic contaminated drinking water in India</b>	<b>8</b>
	<b>2.2.2</b>	<b>Arsenic contamination in West Bengal</b>	<b>8</b>
	<b>2.2</b>	<b>Different sources of Arsenic in water</b>	<b>10</b>
	<b>2.2.1</b>	<b>Geophysical source</b>	<b>10</b>
	<b>2.2.2</b>	<b>Geochemical resource or leaching of arsenic</b>	<b>11</b>
	<b>2.2.3</b>	<b>Organo-arsenic source</b>	<b>11</b>
	<b>2.2.4</b>	<b>Pesticidal source</b>	<b>11</b>
	<b>2.2.5</b>	<b>Industrial sources Arsenic</b>	<b>12</b>
	<b>2.3</b>	<b>Human affection by arsenic</b>	<b>12</b>
	<b>2.4</b>	<b>Absorption, metabolism, distribution and excretion of arsenic</b>	<b>13</b>
	<b>2.4.1</b>	<b>Absorption</b>	<b>13</b>
	<b>2.4.2</b>	<b>Metabolism</b>	<b>13</b>
	<b>2.4.3</b>	<b>Distribution</b>	<b>15</b>
	<b>2.4.4</b>	<b>Excretion</b>	<b>15</b>
	<b>2.5</b>	<b>Arsenic is in food, hairs, nails and body fluids</b>	<b>16</b>
	<b>2.6</b>	<b>Toxic effect of arsenic</b>	<b>17</b>
	<b>2.6.1</b>	<b>Toxic effect of arsenic on skin</b>	<b>17</b>
	<b>2.6.2</b>	<b>Arsenicosis on haematopoiesis</b>	<b>18</b>
	<b>2.6.3</b>	<b>Effect of arsenic on Gastrointestinal (GI) system</b>	<b>18</b>
	<b>2.6.4</b>	<b>Effect of arsenic on neuron system</b>	<b>19</b>
	<b>2.6.5</b>	<b>Effect of arsenic on Immunology</b>	<b>20</b>
	<b>2.6.6</b>	<b>Arsenicosis and DNA</b>	<b>20</b>
	<b>2.6.7</b>	<b>Effect of arsenicosis on Reproduction</b>	<b>22</b>

	<b>2.6.8</b>	Toxic effect of arsenic on Male Reproduction	<b>22</b>
<b>2.7</b>		Reactive Oxygen Species and antioxidant properties	<b>23</b>
	<b>2.7.1</b>	Cellular machinery system of ROS (Reactive Oxygen Species) formation	<b>23</b>
	<b>2.7.2</b>	Mechanism of free radicals generation	<b>24</b>
	<b>2.7.3</b>	Damaging reaction of free radicals	<b>24</b>
	<b>2.7.4</b>	Arsenic and free radicals	<b>25</b>
	<b>2.7.5</b>	Role of antioxidants against on free radicals	<b>25</b>
	<b>2.7.6</b>	Role of antioxidant on arsenic toxicity and female reproduction	<b>26</b>
<b>2.8</b>		Wistar albino rats and Estrous cycle of this strain	<b>30</b>
	<b>2.8.1</b>	Estrous cycle in Wistar rat	<b>30</b>
	<b>2.8.2</b>	Phases of the estrous cycle	<b>31</b>
	<b>2.8.3</b>	Hormonal regulation of different phases of estrous cycle	<b>32</b>
<b>2.9</b>		Ovarian Steroidogenesis	<b>34</b>
<b>2.10</b>		Ovarian folliculogenesis: A brief review	<b>36</b>
	<b>2.10.1</b>	Histological structure of different generation of follicles in folliculogenesis	<b>36</b>
	<b>2.10.2</b>	Mitotic and meiotic cell division of oogonium at different steps of folliculogenesis	<b>37</b>
	<b>2.10.3</b>	Histological structure of atretic follicles	<b>38</b>
	<b>2.10.4</b>	Hormonal regulation to maintain estrous cycle	<b>38</b>
<b>2.11</b>		An overview of vitamin B <sub>12</sub> and folic acid	<b>40</b>
	<b>2.11.1</b>	Vitamin B <sub>12</sub>	<b>40</b>
	<b>2.11.2</b>	Folic acid	<b>42</b>
	<b>2.11.3</b>	Absorption and distribution of Vitamin B <sub>12</sub>	<b>42</b>
	<b>2.11.4</b>	Folic Acid absorption	<b>43</b>
	<b>2.11.5</b>	Functional aspects of Vitamin B <sub>12</sub> and folic acid	<b>44</b>

<b>Chapter-3</b>	<b>3.0</b>	<b>Aims and Objectives</b>	<b>47</b>
<b>Chapter-4</b>	<b>4.0</b>	<b>Material and Methods</b>	<b>49</b>
	<b>4.1</b>	Reagents	<b>49</b>
	<b>4.2</b>	Animal and their maintenance	<b>50</b>
	<b>4.2.1</b>	Composition of Standard Laboratory Diet	<b>50</b>
	<b>4.3</b>	Biochemical Assay of Ovarian $\Delta^5$ , 3 $\beta$ -HSD Activity	<b>51</b>
	<b>4.4</b>	Biochemical Assay of Ovarian 17 $\beta$ -HSD Activity	<b>52</b>
	<b>4.5</b>	Estimation of FSH by Rat FSH (Folicle-stimulating hormone) ELISA Kit	<b>52</b>
	<b>4.6</b>	Estimation of LH by Rat LH (Luteinizing Hormone) ELISA Kit (Wuhan Fine Biotech Co., Ltd.	<b>54</b>
	<b>4.7</b>	Estimation of ESTRADIOL by Rat E2 (Estradiol) ELISA Kit (Wuhan Fine Biological Technology Co.	<b>55</b>
	<b>4.8</b>	Biochemical assays of transaminase, phosphatase, and total protein	<b>56</b>
	<b>4.9</b>	Detection of urea and creatinine levels	<b>57</b>
	<b>4.10</b>	Estimation of Malondialdehyde and Conjugated Dienes Levels	<b>57</b>
	<b>4.11</b>	Colorimetric Assay of Super oxide Dismutase (SOD) and Catalase Activities	<b>58</b>
	<b>4.12</b>	Assessment of SOD and Catalase by native gel electrophoresis	<b>59</b>
	<b>4.13</b>	Assessment of Uterine Peroxidase activity and electrozymogram of Peroxidase	<b>59</b>
	<b>4.14</b>	Assessment of serum total Lactate Dehydrogenase (LDH)	<b>60</b>
	<b>4.15</b>	Estimation of lipid profile	<b>60</b>
	<b>4.16</b>	Estimation of Estimation of Non-protein soluble thiol (NPSH)	<b>61</b>
	<b>4.17</b>	DNA analysis	<b>61</b>
	<b>4.18</b>	Comet assay	<b>62</b>
	<b>4.19</b>	Histological study	<b>62</b>
	<b>4.20</b>	Densitometry and Statistical Analysis	<b>63</b>

	4.21	Statistical Analysis of Data	63
<b>Chapter-5</b>	<b>5.0</b>	<b>Experiment</b>	<b>65</b>
	<b>5.1</b>	<b>Experiment I: Dose Dependent response of Sodium Arsenite on reproductive organs of female albino rat</b>	<b>65</b>
	5.1.1	Aims and objectives	65
	5.1.2	Experimental design	65
	5.1.3	Animal grouping treatment protocol	65
	5.1.4	Treatment protocol	66
	5.1.5	RESULTS	67
	5.1.5.1	Pattern of estrous cycle	67
	5.1.5.2	Body weight and organ weight	67
	5.1.5.3	Ovarian $\Delta^5$ , $3\beta$ -HSD activities and $17\beta$ -HSD activities	68
	5.1.5.4	Serum levels of FSH, LH and estradiol	68
	5.1.5.5	Antioxidative enzymes	68
	5.1.5.6	Lipid Peroxidation biomarkers	68
	5.1.5.7	Histometric study of ovary and uterus	69
	5.1.6	Conclusion	72
	<b>5.2</b>	<b>Experiment-II: Duration dependent response of Sodium arsenite on reproductive organs female albino rat.</b>	<b>73</b>
	5.2.1	Aims and Objective	73
	5.2.2	Experimental Design	73
	5.2.3	Results	75
	5.2.3.1	Pattern of estrous cycle	75
	5.2.3.2	Body weight and organ weight	75
	5.2.3.3	Ovarian $\Delta^5$ , $3\beta$ -HSD and $17\beta$ -HSD activity	75
	5.2.3.4	Serum levels of FSH, LH and estradiol	75
	5.2.3.5	Antioxidative enzymes	76
	5.2.3.6	Lipid Peroxidation biomarkers	76
	5.2.3.7	Histometric study of ovary	76
	5.2.4	Conclusion	80
	<b>5.3</b>	<b>Experiment-III: Dose Selection of Vitamin-B<sub>12</sub> and folic acid by ameliorative effect to reduce the arsenic mediated toxicity on female reproductive organs</b>	<b>81</b>
	5.3.1	Aims and objectives	81

5.3.2	Experimental design	81
5.3.3	Results	82
5.3.3.1	Estimation of $\Delta^5,3\beta$ -HSD and $17\beta$ -HSD	82
5.3.3.2	Estimation of LH, FSH, Estradiol in serum	83
5.3.3.3	Status of oxidative stress bio-sensors	83
5.3.3.3.1	Antioxidative enzymes (Catalase, Superoxide dismutase, Peroxidase) activity	83
5.3.3.3.2	End products of Lipid peroxidation levels monitoring	84
5.3.3.4	Serum Lactate Dehydrogenase Status	84
5.3.3.5	Histoarchitectural assessment female reproductive organs	85
5.3.3.6	DNA fragmentation study	85
5.3.4	Conclusion	96
5.4	<b>Experiment-IV: Toxicity assessment of Vit-B<sub>12</sub> and folic acid on female albino rat:</b>	97
5.4.1	Aims and Objectives	97
5.4.2	Experimental Design	97
5.4.3	Result	98
5.4.3.1	Body weight and oregano-somatic indices (female reproductive) and toxicity assessment	98
5.4.3.2	Estimation of LH, FSH, Estradiol in serum	98
5.4.3.3	Ovarian $\Delta^5, 3 \beta$ -HSD and $17 \beta$ -HSD activities	99
5.4.3.4	Serum Total Protein/ SGPT/ SGOT/ ALP/ Urea/ Creatnine status	99
5.4.3.5	Antioxidative enzymes (catalase, superoxide dismutase) activity and end product of lipid peroxidation (MDA and CD) monitoring	99
5.4.3.6	Histoarchitectural assessment of Kidney and Liver	99
5.4.3.7	DNA fragmentation study	106

5.4.4	Conclusion	107
5.5	<b>Experiment-V:</b> Testing the efficacy of vitamin B <sub>12</sub> and folic acid in metabolic organ	108
5.5.1	Animal Selection and Treatment	108
5.5.2	General Observations	108
5.5.3	Lipid profile	109
5.5.4	Status of oxidative stress markers in liver	109
5.5.5	Liver histology and DNA fragmentation	109
5.5.6	Conclusion	113
5.6	<b>Experiment-VI:</b> Duration dependent withdrawal effect of selective formulation of co-administration of Vit-B <sub>12</sub> and/or folic acid in arsenic induced toxicity on sex organs of female albino rat	114
5.6.1	Aims and Objectives	114
5.6.2	Experimental Design	114
5.6.3	Results	116
5.6.3.1	Estimation of LH, FSH, And Estradiol in serum: Ovarian $\Delta^5$ , 3 $\beta$ -HSD and 17 $\beta$ -HSD activity	116
5.6.3.2	Antioxidative enzymes (Catalase, Superoxide dismutase, peroxidase) activity monitoring	117
5.6.3.3	Comet Assay	118
5.7	<b>Experiment-VII:</b> <i>in vitro</i> studies on folic acid and Vit-B <sub>12</sub> of sodium arsenite treatment on ovarian $\Delta^5$ , 3 $\beta$ -HSD and 17 $\beta$ -HSD activity in mature albino rat	119
5.7.1	Experimental Design	119
5.7.2	Results	121
6.0	DISCUSSION	122
7.0	CONCLUSION	140
8.0	SUMMARY	142
9.0	BIBLIOGRAPHY	146
