

ACKNOWLEDGEMENT

Taking this opportunity, I would like to first of all thank our Almighty God for giving me the opportunity to complete my thesis and for providing good health throughout my research works. Nothing would have been possible without His Grace and Love.

I extend my sincere gratitude, regards and thankfulness to my guide, Dr. Bidhan Chandra Patra, Professor, Department of Zoology, Vidyasagar University, Midnapore, West Bengal for being a great mentor and for his continuous supervision, advice and guidance throughout my research works and also for his unflinching encouragement and support in various ways. Words cannot express the love and care that he has shown towards me for successful completion of my research work.

Nevertheless, I am also much indebted to Dr. B. C. Jha, Principal Scientist (Rtd.) and Former Head of Reservoir and Wetland Division, ICAR-CIFRI, Barrackpore for accepting as my co-guide and for his invaluable guidance, inspiration, efforts shown in planning and execution of my research work. He will always be remembered for showing me the path to achieve my dream of becoming a Ph.D. scholar.

I would also like to thank and acknowledge my former Director, Mr. Zenohol Angami and the present Director, Mr. Kevisa Kense from the Department of Fisheries and Aquatic Resources, Government of Nagaland for giving me the opportunity to complete my research works and for supporting me in every walks of my journey. I am also grateful to my colleagues and staffs from the Department of Fisheries and Aquatic Resources, Government of Nagaland for their persistent support and encouragement throughout my research works.

I gratefully acknowledge all the Faculty members of Department of Aquaculture Management and Technology, non-teaching staffs of Vidyasagar University for their constant support and guidance in times of need. My acknowledgement will not be complete if I don't extend my sincere gratitude to Lab members of Zoology Department, Vidyasagar University with special reference to Dr. Manojit Bhattacharya, Mr. Avijit Kar, Mr. Deep Sankar Chini, Mr. Soumendu Ghosh and Mr. Niladri Mandal for their valuable technical assistance,

scientific advice and critical comments at various stages and for helping me in preparing manuscript and statistical interpretation of my data.

Sincere gratitude to Professor Ranjan Chakrabarti, Honorable Vice-Chancellor, Vidyasagar University, West Bengal for his constant support and recommendation for my Doctoral program.

It is also my pleasure to mention the name of my friends, Mr. Robert Walling, Mr. Limaonen and Mr. Alemjongshi for their suggestions and for accompanying me in my entire field works to Doyang reservoir. I would also like to especially thank Mr. Chanbemo Ezung and fishermen from Doyang reservoir for their assistance in sampling of the fishes and water of Doyang reservoir whenever I visit the reservoir for research work. Their constant support and help will always be remembered.

Special thanks to my wife, Mrs. Ajano Naleo, who has been a source of encouragement, support, love and care throughout my research works and for guiding me to pursue my dreams.

Last but not the least, I express my sincere gratitude to my grandfather, mother, brother and his family, my son and daughters for their constant love and prayer which enabled me to complete this research work.

In conclusion, I thank all those whose names are not being mentioned but have assisted me directly or indirectly to finish my research work successfully.
