

LIST OF FIGURES

<i>Figure No.</i>	<i>Title</i>	<i>Page No.</i>
Figure: 1	Location of Nagaland state in India.	19
Figure: 2	Location of Doyang Reservoir in Nagaland, India.	20
Figure: 3	Satellite image of Doyang Reservoir, Wokha, Nagaland.	20
Figure: 4	Study area of Doyang Reservoir, Nagaland, India.	21
Figure: 5	Partial view of Doyang Reservoir, Nagaland during summer season.	23
Figure: 6	Partial view of Doyang Reservoir during winter season.	23
Figure: 7	A detail account of Doyang Reservoir by NEEPCO, GoI undertaking.	24
Figure : 8	Installation for cage culture initiated by the Department of Fisheries and Aquatic Resources, Nagaland at Doyang Reservoir.	24
Figure: 9	A view of different sampling sites at Doyang Reservoir.	24
Figure: 10	Collection of fish sample through non-mechanized boat and interaction with the fisherman at Doyang reservoir.	26
Figure: 11	Fish identification and water sample collection at Doyang reservoir.	26
Figure: 12	Physico-chemical parameters analysis of water sample at Doyang reservoir.	26
Figure: 13	In-situ data collection and physico-chemical parameter analysis during different time periods from different sites of Doyang reservoir.	32
Figure: 14	Collection of fish samples from Doyang reservoir extensions and main reservoir.	32
Figure: 15	Stocking of IMC fish seeds at Doyang Reservoir by the Department of Fisheries and Aquatic Resources, Nagaland Government.	40
Figure: 16	Collection of fish from Doyang reservoir by local fisherman.	40
Figure: 17	Stocking of fish from Doyang reservoir at landing sites.	40

Figure: 18	Bar diagram showing family wise fish availability in Doyang reservoir.	45
Figure: 19	Diagrammatic representation of fish species in Order wise at Doyang reservoirs.	46
Figure: 20	Pie chart shows the percentage of IUCN Red Listed species available at Doyang reservoir.	47
Figure: 21	Diversity indices of fish species availability in different study sites of the Doyang reservoir (S- species, US-Upper Stretch, MS- Middle Stretch, LS- Lower Stretch).	47
Figure: 22	Number of fish species (N) sampling in different sites of Doyang reservoir (US-Upper Stretch, MS- Middle Stretch, LS- Lower Stretch).	48
Figure: 23	Species Dominance index (D) of available fish species in study sites.	48
Figure: 24	Simpson Dominance index (1-D) of fish species at different sites of Doyang reservoir.	49
Figure: 25	Shannon Diversity indices (H) of fish fishes in respective study sites at Doyang reservoir.	49
Figure: 26	Evenness index ($\exp H/s$) of fish species at three different study sites at Doyang reservoir.	50
Figure: 27	Berger-Parker diversity index of fish species in Doyang reservoir study area.	50
Figure: 28	Chao-1 diversity indexing depending on three study areas of Doyang reservoir.	51
Figure: 29	Individual rarefaction index between total numbers of individual (total specimen) with available fish species (Taxa) in different study sites.	51
Figure: 30	Individual rarefaction index between total numbers of individual (total specimen) with Shannon index ($\exp H$) in different study sites.	52
Figure: 31	Individual rarefaction index between total numbers of individual (total specimen) with Simpson diversity index (1/D) in different study sites.	52

Figure: 32	SHE analysis depending on three study sites through the log species abundance (ln S), Shannon index (H) and log evenness index (ln E= H-ln S) for the sample.	53
Figure: 33 A, B	Monthly variations of Air temperature and water temperature from the duration of February 2015 to January 2018 at Doyang reservoir.	56
Figure: 34	Variation of Secchi depth (water transparency) on monthly basis at Doyang reservoir from Feb. 2015 to Jan. 2018.	57
Figure: 35	pH range in different time scale during study period at Doyang reservoir.	58
Figure: 36	Determination of D.O at Doyang reservoir on different monthly interval.	59
Figure: 37	Month wise variations of free CO₂ at Doyang reservoir study sites.	60
Figure: 38	Month wise variations of specific conductivity at Doyang reservoir study sites.	61
Figure: 39	Monthly variations of TDS at Doyang reservoir.	62
Figure: 40	Monthly variations of Total Alkalinity at Doyang reservoir.	63
Figure: 41	Monthly variations of Total hardness at Doyang reservoir.	64
Figure: 42	Monthly variations of Chlorine concentration at Doyang reservoir.	65
Figure: 43 A-D	Correlation between fish abundance and measured water qualities (pH, D.O, T.D.S, Temp., Conductivity etc.) at Doyang reservoir during entire study periods (Feb. 2015 to Jan. 2018).	68-69
Figure: 44	Matrix plot showing the availability of fish species based on IUCN status at Doyang reservoir on different seasons.	86
