

Acknowledgement

This long pursuit of earning a doctoral degree seems to have come to an end. Like any other creation, this humble work of mine is also not a result of isolation. So many people and organizations has helped and contributed in bringing the present work to this state. I wish I can accommodate and acknowledge each one of them on this page.

At the very foremost I would like to thank my supervisor Dr. Ramkrishna Maiti for happily agreeing to guide me for this scholarly pursuit. He has always been a constant source of inspiration and guidance since my undergraduate days when he used to teach us at Govt. College, Darjeeling. His unmatched and uncommon method of teaching has always been a benchmark that I'm still trying to reach. During all these years of this research under him, I received generous amount of guidance and suggestions from him. I'm really thankful to him for always encouraging me when things were not going well and I was stuck for months on a single work without any progress.

I wish to acknowledge my sincere gratitude to organizations, officials and official sites of departments like Geological Survey of India (GSI), Survey of India (SOI), Census of India, National Atlas and Thematic Mapping Organisation (NATMO), Geo-portal of ISRO (Bhuvan), United States Geological Survey (USGS) for providing me with valuable data and information that proved necessary to carry out my research.

I'm indebted to Ashok daju for providing me room and also a family environment at Odlabari Bazaar for my stay during field surveys. I would like to thank friends Mr. Lenin Rai and Miss Asha Lama from Gorubathan and Malbazaar respectively for taking care of my lodging, fooding and introducing the study area during the initial phase of the study. I'm really indebted to my cousin brother Mr. Norgen Lama who acted as field assistant during the post-monsoon of 2015. Similarly, many students from Darjeeling Govt. College, namely Asif Subba, Adarsh Chamling, Supratim Bhatta and Junaid Akhtar helped during the field surveys and their help is thankfully acknowledged. Office Staffs of Udichhi Lodge, Malbazar managed by Mal Municipality are also thanked for helping me for my stay during field surveys.

I thankfully acknowledge helps received from Dr. Moumita Moitra Maiti, Dr. Swapan Kumar Maity, Dr. Animesh Majee, Dr. Suman Bera, Dr. Abhishek Ghosh, Mr. Dilip Roy, Mr. Souvonik Maiti, Mr. Hirak Mahata throughout the research work. I'm especially thankful to Dr. Abhishek Ghosh, D.S. Kothari Post Doctorate Fellow of the department for giving me much needed moral support and helping me with running SWAT model. I'm equally grateful to PhD committee of Vidyasagar University for giving me opportunity of pursuing PhD in this university.

My words of thanks will always prove less for the acknowledgement of my family members who made great sacrifices during the tenure of this PhD program. I'm highly indebted to my wife Dr. Marsha Lama, Assistant Professor, Southfield College, Darjeeling for her unconditional love and untiring amount of encouragement. My son Kungha Tashi Lama has also made sacrifices in terms of the time that was due to him have been spent in preparation of this thesis. I'm committed to give little more time and care to him now onwards.
