

# List of Plates

1.1	Photographic evidence of field survey . . . . .	52
2.1	Identified geomorphological setting in the Henry's island and the Patibania island (1) . . . . .	73
2.2	Identified geomorphological setting in the Henry's island and the Patibania island (2) . . . . .	74
2.3	Root systems of mangroves found in the Henry's island and the Patibania island	83
2.4	Geomorphic features of the Patibania island . . . . .	86
2.5	A saltpan in the Henry's island . . . . .	88
2.6	Beach ridge environment in Patibania island . . . . .	88
2.7	Tidal flats in Bakkhali coastal stretch . . . . .	90
2.8	Locations of the Bakkhali creek in the Henry's island and the Edward's creek in the Patibania island . . . . .	92
2.9	Saltmarsh vegetation along the Muriganga estuary . . . . .	96
2.10	Saltpans in the two islands . . . . .	100
2.11	GPS profile of a saltpan . . . . .	103
2.12	GPS profiles of two saltpans . . . . .	104
2.13	Shoreline erosion and mangrove migration . . . . .	117
2.14	Soil character of Henry's island . . . . .	120
3.1	Beach morphology of Bakkhali coast . . . . .	129
3.2	Wave action in Bakkhali coast . . . . .	132
3.3	Rhomboidal ripple marks and mud balls . . . . .	133
3.4	Beach features . . . . .	134
3.5	Impact of Amphan on the coastal belt of Sundarban . . . . .	142
3.6	Impact of coastal hazards in Sundarban . . . . .	143
3.7	Beach topography . . . . .	146

3.8 Beach topography . . . . .	148
4.1 Stratigraphical view of soil in a saline blank . . . . .	161
4.2 Photos of soil texture . . . . .	162
4.3 The mangrove zones in the Patibania island . . . . .	189
4.4 Salt crystals on the leaves of <i>Aegiceras</i> . . . . .	191
4.5 Satellite images of overwash deposits in the Henry's island . . . . .	196
4.6 Photographic evidences of overwash deposits in the coast of south-western Sundarban . . . . .	197
4.7 Some creatures involving in bioturbation in the Bakkhali beach . . . . .	198
4.8 Some outcomes of bioturbation in the Bakkhali beach (1) . . . . .	199
4.9 Some outcomes of bioturbation in the Bakkhali beach . . . . .	200
4.10 Creatures involving in bioturbation in a saltpan in the Henry's island . . . . .	201
4.11 Bioturbation on the shoreface . . . . .	202
4.12 Exposed roots of coastal plants in the Henry's island due to erosion . . . . .	204
4.13 Salt marsh on the eastern bank of the Edwards's creek (left) and mangrove swamp on the western bank . . . . .	207
4.14 A new mangrove plantation on the tidal flat in the Henry's island . . . . .	210
5.1 Mangrove zones with different vegetation densities in the Henry's island . . . . .	232
5.2 Mangrove zones with different vegetation densities in the Patibania island . . . . .	233
5.3 Measuring biomass during fieldwork . . . . .	244
5.4 Measuring tidal prism in a large creek . . . . .	254
6.1 Watch tower of Kiran beach and with forest guard at Patibania island . . . . .	265
6.2 Afforestation along mudflat . . . . .	265
6.3 Saline blanks and canal in Henry's island . . . . .	266
6.4 Artificial ditches for the plantation of mangroves . . . . .	266
6.5 Beach topography . . . . .	267
6.6 Salt manufacturing in Sundarban . . . . .	282
