

Acknowledgement

It is a great moment of pleasure and pride to look back with a sense of happiness at the long journey of my research work. During this journey I was fortunate enough to have some of the fine and glorious moments and contributions of so many people-some of them were with me continuously from the beginning of my research; some joined me at different stages during this journey. Their sympathy, love and blessings have brought this memorable day to me. I wish to thank each and everyone of them from the core of my heart.

First and foremost, I would like to convey my honour and dedicate my emotions to my research guide, most respectable Dr. Subal Chandra Manna, whose continuous support, love and encouragement kindled my aspiration. I consider myself to be lucky to work under his liberal guidance, because I have got newer creative dimensions and positive attitude in my power of thinking and analyzing capacity. He has constantly encouraged me to remain focused on achieving my goals. I bow my head with absolute respect and pleasantly convey my hearty thanks to him.

I would like to express my deepest sense of indebtedness, towards the Hon'ble Vice chancellor, Professor Ranjan Chakrabarti, Registrar, Dr. Jayanta Kishore Nandi for providing me with various sorts of facilities.

I wish to give Special thanks to Professor Syed Sirajul Islam, Professor Braja Gopal Bag, Professor Ajay Kumar Misra, Professor Amiya Kumar Panda, Professor Sudipta Dalai, Dr. Sumita Roy, Dr. Maidul Hossain and Dr. Anirban Basu for helpful discussions and moral support whenever I needed in the course of my research work.

I also gratefully acknowledge Prof. Ennio Zangrando (Department of Pharmaceutical and Chemical Sciences, University of Trieste, 34127 Trieste, Italy), Dr. H. Puschmann (Department of Chemistry, University of Durham, South Road, Durham DH1 3LE, UK), Dr. P. A. Goddard (Department of Physics, University of Warwick, Gibbet Hill

Road, Coventry, CV4 7AL, UK), Dr. S. Ghannadzadeh (Oxford Instruments Nano Science, Tubney Woods, Abingdon, Oxfordshire OX13 5QX, UK), Joan Cano (Fundació General de la Universitat de València (FGUV), Universitat de València, 46980 Paterna, València, Spain), Julia Vallejo (Institut de Ciència Molecular (ICMol), Universitat de València, 46980 Paterna, Valencia, Spain), Albert Figuerola (Departament de Química Inorgànica i Orgànica (Secció de Química Inorgànica), Universitat de Barcelona Martí i Franquès 1-11, 08028 Barcelona, Spain) for their help and valuable suggestions in my research work.

I also would like to thank Dr. Soumen Mistri, Apurba Bhunia, Aparup Paul, Kalipada Das, Samar Dolai, Apu Patra, Manas Kr. Mahish and Dama Saren. I am really very much thankful to God for giving me such nice lab mates.

I am also grateful to my colleagues for their moral support and administration of Keshiary High School (H.S) by giving me the opportunity to complete my research work.

Above all, I bow my head with utter respect to my beloved parents for this achievement of my life. I do not find any word to express my gratefulness to my wife Paramita and son Soumit who stood beside me during my work. Their love and cheerful face always boosted me up. I am also thankful to my elder sister Bhagabati and younger sister Rina for their continuous encouragement in my life.
