ANNUAL REPORT

2006-2007

VIDYASAGAR UNIVERSITY

Dr. Swapan Kumar Pramanick

Vice-Chancellor

FOREWORD

The Annual Report of an educational institution mirrors the ongoing process and progress of its development – both academic and infrastructural. It also records the institution's milestones for the posterity of the University Community.

Vidyasagar University, it is gratifying to note, is advancing slowly but steadily to achieve its desired goals : *Education, Knowledge and Progress* : The present report covers the activities of the University in the period, 01 April to 31 March 2007. Apart from implementing the long-term development programme, the University has ventured a bunch of other new projects under various heads. R & D activities are praiseworthy and have achieved accolades both at the national and international levels. Infrastructural constraints are there but our University Community has weathered them with smiling faces to help the University sail through all the oddities.

We are proud to say that within its very short span of life our University has had its presence felt in the higher educational universe not only in West Bengal but also at the national level too. But we are not oblivious of our limitations; many important works are to be done. These snags and lapses have been identified, which, we hope, are expected to be plugged in the days ahead; for this we expect devotion, determination and diligence from each and every segment of the University Community.

I take this opportunity to congratulate all concerned who have helped make the publication of this Annual Report a success.

SK Pramanick

CENTRAL LIBRARY

1. **Library Building:**

The Central Library is housed in a three-storied building with an approx total area of 12000 sq. ft. Within the library the Acquisition unit, the Processing unit and the Periodicals unit and the area for Internet and Database searching are situated in the ground floor. On the first floor the Reference Section (including the main reading hall) and one Stack area are there. The Circulation unit and the main Stack are situated on the second floor. The Online Public Access Catalogue is also searched from the second floor. Periodicals Reading Room is situated in the ground floor. Besides these three floors, another hall of about 2.5 thousand sq.ft. has been constructed upon one portion of the second floor where the present Reading Room will be shifted within a month.
2. **Library Working Hours:**

The Central Library functions from 8.30 a.m. to 5.30 p.m. on all days except Saturdays, Sundays and University holidays. On Saturdays only the Reference Section and the Reading Room remain open from 10.30 a.m. to 5.30 p.m. In the year 2006–2007 the library remained open for 286 days.
3. **Membership:**

As many as 2864 nos. of registered members are enrolled in the Central Library.
4. **Library Budget:**

During the Financial Year 2006-07 the library has received Rs.9 lakhs (Rs.6 lakhs from State Govt. and Rs. 3 lakhs from UGC) for purchasing books and journals.
5. **Acquisition of Books, Periodicals and Theses:**
 - i) **Books:** The Central Library has a collection of 72051 books on different subjects out of which 1922 nos. of documents are collected as gift. During the financial year 2006-07 the Library had purchased 1026 copies of books.
 - ii) **Periodicals:** The library has subscribed to a total no. of 108 current journals and 16 magazines in the year 2006-07. Total no. of bound volume journals are 2648.
 - iii) **Theses :** The library has a total collection of 167 Ph.D. theses up to the year 2006-07.
6. **Technical Processing:**

About 3600 volumes were classified and catalogued. Preparation of other entries was also completed. Necessary catalogue cards have been prepared and filed in the public catalogue cabinet.
7. **Reprographic Service:**

The Central Library has a reprographic unit (operated by an outer agency) which provides facilities of photocopying the reading materials as and when required by the bonafide users.
8. **Inter Library Loan & Institutional Membership:**

The Central Library has subscription of Institutional Membership of two rich libraries like IIT Library, Kharagpur and British Council Library, Kolkata where our users can get access to their resources.

Vidyasagar University Central Library has also started offering the Institutional Membership to the colleges affiliated to this university during 2006-07. Consultancy services and technical supports for library automation are being provided to the member libraries.

9. **Circulation and Reference Service:**

A total no. of 19051 books were issued and 18814 volumes were returned during 2006-07.

About 5 thousand users have made use of the library reading rooms during the year. Nearly 15 thousand of books and other reading materials were consulted in the library. Apart from its routine services, the library also provided bibliographic and other information services.

10. **Library Automation:**

Automation in the central library had been initiated since 2002-03 and now it is running in full swing. Initially the financial support was given by the UGC through INFLIBNET to establish the backbone (proper infrastructure) of the computerized library. A good no. of book databases was created following the guidelines of INFLIBNET. SOUL SOUL (Software for University Libraries) package was used in all the house-keeping operations of the library. The in-house databases of books, journals and theses are updated regularly. Total databases of books, journals and theses are stored in the library database server at terminal within the campus through campus LAN or from outside through webopac. Besides this, other services including internet service, e-mail service, CD-ROM database service etc. are also provided by the library.

USE OF COMPUTERS:

***CREATION OF DATABASES:**

University library has created so far databases of 45840 books, 108 current journals (2006-07), 135 Ph.D. theses and 2849 users in the year 2006-07.

***LIBRARY HOUSE-KEEPING OPERATIONS:**

In the Circulation Unit, issue and return of books are done using barcode technology with the help of CCD Scanners. It is time saving and accurate also. Preparation of defaulter lists and generation of fine slips are done quite comfortably. In the Processing Unit, books are catalogues as per MARC 21 format as prescribed in the SOUL software package. Purchasing new books, order generation, receiving, accessioning and bill processing works are done through computer which is also proved much time saving. Barcodes are generated in the processing unit.

***ONLINE DATABASE SEARCH:**

All the users can avail the online search service through OPAC. Total databases of books, periodicals and Ph.D. theses are stored in the main Library Server. Readers can search the status of books, journals (current & back issues holding) and theses by searching through Author, Title, Acc. No. and Subject etc. from Online Public Access Catalogue (OPAC) search. Furthermore (as stated earlier), these database can easily be accessed from any terminal within the library as well as within the campus through LAN.

***INTERNET AND E-MAIL SEARCH:**

Internet and e-mail services are provided to all the users of Vidyasagar University library free of charges. With these facilities the users can receive / send the relevant information relating to their academic work from/to any corner of the world. Presently all types of library users including **faculties, students, administrative staff and research scholars and the institutional members** from other institutions can also avail these facilities. The Website of Vidyasagar University was created and maintained by the central library. All the information relating to our university is available at www.vidyasagar.ac.in. The e-mail address of Vidyasagar University library is info@vidyasagar.ac.in and librarian@vidyasagar.ac.in. Being a member of the INFLIBNET programme, the central library can get on-line access to the union databases of books, serials, theses etc. created at the INFLIBNET centre.

11. UGC-INFONET PROGRAMME:

University Grants Commission has launched an ambitious programme to bring about a qualitative change in the academic infrastructure, especially for higher education. Under this initiative UGC is modernizing the University campuses with State-of-the-art campus wide networks and setting up its own nationwide communication network named UGC-Infonet.

INFLIBNET Centre is an autonomous Inter-University Centre of the University Grants Commission. It is the co-ordinating and monitoring agency in the UGC-Infonet Project. The center acts as liaison between UGC, the ERNET and the Universities. INFLIBNET is also responsible for providing training to university library professionals in the use of this network for providing variety of services to the users.

E-JOURNAL CONSORTIA:

With the globalization of education and competitive research, demand for journals (mainly the International Journals) has increased over the years. Due to insufficient funds, libraries are forced to curtail subscriptions of journals. UGC has turned towards the Internet to cover the gap between demand and supply by way of e-journals that can be subscribed online.

UGC has taken the initiative to make an alliance with different publishers of the international journals for adapting a consortia-based approach for e-subscription of journals. INFLIBNET Centre is acting as the nodal center of this consortium. Orders for subscription to e-journals on publishers/aggregators will be placed by INFLIBNET Centre, on behalf of member universities of the consortium. These journals will be freely available over UGC-Infonet to all the universities through Broad Band VSAT connectivity.

Being a member of this consortium, Vidyasagar University is also getting access to a good no. of international journals (near about 4 thousand) covering different subjects. It can be increased further depending upon the demand and usage.

Directorate of Distance Education

Director: Professor Juran Krishna Sarkhel

Distance Education has come to stay as an accepted form of education throughout the world. The Directorate of Correspondence Courses (later renamed as Directorate of Distance Education (DDE) of Vidyasagar University was established in 1994 and started offering postgraduate courses of study in different subjects under distance mode from the academic session 1994-1995. The objective of the DDE of Vidyasagar University is to reach those eligible (criteria are fixed by the University from time to time) rural and urban populations, irrespective of space, age and sex who, for one reason or the other, are unable to get formal system of education under regular mode. Distance Education of this University has become very popular across the country and is acknowledged to a great extent by many educationists. In recent years many universities in West Bengal have introduced distance-learning programme for different courses of study, but the DDE of this university stands perhaps second to none.

The management and administration of the DDE of this university is vested in the Executive Council and is administered through the Advisory Committee, the Board of Studies and the Subject Committees attached to the DDE.

Total number of meetings of the Advisory Committee held during 2006-2007 is 06

Student Support System

Website:

Website of the DDE (<http://dde.vidyasagar.ac.in>) contains the detail of admission, application format for downloading, SIMs content, PCP / Counselling Schedules, examination schedules, important notifications, communication details, etc.

Newspaper Notification:

Details of admission, PCP and examination schedules and other notifications are also made available through advertisement in three daily leading newspapers (1st and 15th day of each month).

Admission:

1. Directly at the Main Centre at Vidyasagar University by the candidate / his or her representative.
2. Through study Centres
3. By Post / Courier.

Preparation of Self-Instructional Materials (SIMs):

SLMs (Self Learning Materials) are prepared in the form of Modules by the subject experts consisting of respective faculty members of this University, eminent scientists and teachers from other Universities, IIT, Kharagpur and academic/research institutions. After editorial scrutiny, SIMs are printed and are made available to the students. Guidelines for preparing SLMs have been formulated on the basis of DEC requirements. These guidelines have already been made available to the writers for their adoption in preparing the SLMs.

AV Materials:

For science subjects, VCDs are prepared for practical classes to provide student support services. VCDs have also been prepared on the field studies conducted by the students for future reference.

Achievements

1. The DDE has given an opportunity to a large number of students of all ages for higher education.
2. The DDE of Vidyasagar University is the first institution to introduce science subjects in its course curricula in the Eastern region.
3. DDE has created resource persons for Undergraduate Colleges in Environmental Science, which has been newly introduced in all colleges as compulsory subjects.
4. Several employed DDE students have been benefited professionally in terms of knowledge and position in their offices / institutions.
5. Several passed out DDE students have been employed in Govt. / Semi -govt. educational institutions and private organizations.
6. Several passed out DDE students have qualified in the all India competitive examinations like NET / SLET / GATE / GRE etc.
7. Several passed out DDE students are doing research work under regular mode privately; some already have submitted or will submit their theses.

About the Centre:

The Computer Centre of Vidyasagar University, established in 1998, plays a pioneer role in disseminating the knowledge in computer and its application among the peoples of different communities in and around the rural areas of west Bengal where the University is situated. It has crossed a number of milestones and continue to increase the activities in new areas of application. It provides full computational facilities to the Faculty members, Research Scholar, and students of the University. It provides opportunities to learn computer and its application to faculty members, research scholars, students, staff of the University and College by opening a numbers regular courses, training courses, organizing seminar, workshops for them. Through these training programme it is generating part of revenue. To provide industry oriented teaching to the students in one hand and to generate revenue on the other, it has chosen a collaborative approach with the

IT companies. The Computer Centre of Vidyasagar University has opened a few Post graduate diploma courses in collaboration with CMC. It has taken an initiative to develop projects for all the affiliated colleges in developing Websites and Application software on payment basis. It is maintaining the Campus Wide LAN (Optical Fiber based GBIC) with 400 nodes throughout the campus and Providing the Internet Services and looking after the UGC-Infonet Programme.

The Computer Centre has the following major division currently (April 2006 to March 2007) working to cater the need of the University, Colleges and Society.

1. **Training /Literacy/Awareness programme Division**
2. **Academic Division (Regular & Distance)**
3. **Software Development & Consultancy/Project Division**
4. **Services Division.**

Each of the above division is running successfully and has achieved a number of milestones during 2006-07.

1. Training /Literacy/Awareness programme Division in 2006-07:

The Computer Centre, through this division, disseminates the knowledge in computer and its application among the peoples of different communities in and around the rural areas of west Bengal where the University is situated

Through this section, it offers many certificate and training/awareness courses throughout the year for

- (i) the Staff of University & Colleges,
- (ii) the Post graduate students of the University
- (iii) the Research Scholar, faculty members and officers of the University and
- (iv) for the Madhyamik/H.S. Students, UG Students under the University.

It has planned to extend the Computer Awareness/Literacy programme for the youths of rural and tribal areas in Purulia, Bankura and Midnapore District through seminar/demonstrations.

Training/Certificate Courses Conducted during 2006-2007:

2. Academic Division (Regular & Distance) in 2006-07 :

To provide industry oriented teaching to the students in one hand and to generate revenue on the other, it has chosen a collaborative approach with the IT companies under its Academic Division in 2006-2007. The Computer Centre of Vidyasagar University has opened a few Post graduate diploma courses in collaboration with CMC, Kolkata (A Tata Enterprise) during 2006-07 period. These Courses are

- i) Post graduate Diploma in Applied Computer Science (PGDACS)
Duration – 1 year; Minimum Eligibility: Graduate
- ii) Diploma in Advanced Computer Hardware and Network Administration (DHNA)
Duration – 6 months ; Minimum Eligibility : 10 + 2
- iii) Certificate Course in Basic and Advanced Java
Duration : 3 months; Minimum Eligibility : 10+2

The session of the above courses are as per the regular session of the PG Courses (July – June). Currently Module – II of PGDACS and Module IV of DHNA are running having a total students of 20.

The New Batches of the above courses (from Module – I) will start from July, 2007 along with the regular PG Courses.

The Computer Centre is also opening the Diploma Courses in “Office Automation and Financial Accounting”, “Office Automation and Internet Technologies”, “Office Automation and Multimedia Technologies” through Distance Mode under Directorate of Distance Education from 2007-08 session. Modules of the above courses are being written.

3. Software Development & Consultancy/Project Division in 2006-07.

The Centre has also opened its new wing in terms of S/W development and consultancy works to cater the need of the affiliated colleges and other organizations of the nearby districts in computerizing their activities and provide necessary help and consultation on payment of requisite fees to University.

Under this section it has taken up project and consultancy work of website and Software development of many colleges which includes

University Administration
Kharapur College,
Tamralipta Mahavidyalaya,
Hijli College,
Silda Chandrasekhar College,
Bhatter College,
Ramnagar College etc.

It has exclusive plan for obtaining more development and consultancy works during the next session.

4. Services Division in 2006-2007:

Computer Centre, being the nerve centre of the University takes pioneer role in offering many important and vital services to the University Communities, Colleges and Society. Efforts are always there to improve the Quality of Services provided to the Communities members. Some of the Major services that are provided through Computer Centre are as follows:

- a) **Computational and Research Facilities:** The Computer Centre having newly installed computational and Research Oriented Software, Hardwares and having 24 hours internet

services, offered these facilities to Research Scholar, Faculty members and PG students of the University through Enrolment. A large number of users under this category are enrolled and uses these services.

Enrolment details under this category in 2006-2007:

No. of Research Scholar	-	88
No. of Faculty members	-	120
No. of PG Students	-	150

The number of enrolments will be enhanced once the New Labs are ready.

b) Internet and Other LAN Services through UGC-INFONET Programme in 2006-2007:

The Computer centre is also looking after the UGC-INFONET Programme under which the Internet Connectivity (Broadband VSAT) speed has been upgraded to 1 MBPS from 256 KBPS during 2006-2007 to provide smooth, high speed and uninterrupted (24 hours) internet services to all the Internet and LAN Users of the University community.

The University has also obtained a 2 MBPS backup Internet Connectivity (Broadband) from BSNL during 2006-2007 to enhance the Quality of Service throughout the Campus even during peak working hours.

The total number computer having Internet and LAN connectivity has been increased to 180 at present.

All these Internet users are able to access all the subscribed e-Journals (full text) under **UGC-INFONET e-Journal Consortia.**

c) CAMPUS LAN & it's Maintenance: Computer Centre is also maintaining the Optical Fiber based Gigabit Campus-wide Local Area Network. The smooth and planned maintenance of the Campus LAN has results in 0 hours downtime of the LAN. Users gets uninterrupted services throughout the year. Total number of Computer interconnected in LAN are 190.

d) Practical Facilities to PG Students : Many department is not having enough computer infrastructure but have computer in their course curricula. Computer Centre provides the computer practical facilities to them as per their course curricula.

Apart from these it provides many services to the Affiliated Colleges and the Society in organizing different IT related events, user awareness programme for youths, staff and faculty members of colleges, helps district authority in all IT activities.

UPGRADATION OF CC : For Upgradation of the Computer Centre and development of infrastructural and computation facilities, a grant of Rs. 30 lacs has been received from UGC for which the upgradation of computation and infrastructural facilities works is in progress.

7(f). Dignitaries Visited :

1. Dr. S. Adhikari from CDRI, Lucknow visited the dept. on 1.3.2007 and presented a seminar on "Drug Delivery".
2. Dr. Sankar Prasad Rath IIT, Kanpur visited our dept. of 7.3.2007 and presented a seminar on "Mesohydroxylated Heme : An Intermediate in Heme Degredation Processes catalyzed by Heme - oxygenase".
3. Prof. Ashes De from IACS, Kolkata presented a seminar (entitled "Application of directed metalltion in xynthesis : Expedient routes to condenses sulfur heterocycles and compounds for photophysics studies",) on 28.3.2007.

8. Research activities :

Research group of Dr. Ajay Kumar Misra is working on ab-initio quantum mechanical calculation on (i) ground and excited states proton transfer reaction, (ii) aromatic staking interaction between proteins and nucleic acids, with the help of Gaussian – 03 Programme work on a DST sponsored project entitled "Fatrication of flourimeter coupled with a phase sensitive detection system to study magnetic field effect on exciplex luminescence" are in progress. They are also working on the synthesis and characterization of silver nanoparticles.

(ii) The research group of Dr. Syed Sirajul Islam is engaged in searching for **NEW DRUGS IN CANCER THERAPY** from indigenous origin of edible mushrooms. Some of the fractions isolated from several fungi have been found active in immunomodulation and tumor inhibition. Regarding this five papers in reputed international journals have been published during the last one-year. DST, Govt. of India sanctioned Rs.13,71,200 for the Research project. National Research Development Corporation (NRDC), a pioneer of Govt. of India enterprise under the ministry of Science & Technology, has come forward for patenting some of the research outcomes and it is in process.

Achievements:

- (a) Two research publications were recognized as "Top 50 most down – loaded article" in Carbohydrate Research – 2006.
- (b) Three publications in the same journal rated as "Top – 25 Hottest articles".

(iii) The research group of Dr. B.G. Bag is working with *arjunolic acid* isolated from heavy wood of Arjuna (scientific name *Terminalia Arjuna*), an ornamental tree found in India, Srilanka, Myanmar and elsewhere. It has been observed that with simple structural modifications, the *arjunolic acid* derivatives can discriminate monovalent cations in a manner similar to biomolecules. In another application, it has been shown that a derivative of *arjunolic acid* can act as an efficient **Gelator** of varieties of solvents at a very low concentration. The molecules assemble in one dimension forming fibers of *nanometer to micrometer* dimensions leading to the formation of a fibrous network. The solvent molecules are then trapped inside the network leading to the formation of a **Gel**. The nanofibers formed from small molecules by noncovalent interactions are of great significance in **Nanoscience and Nanotechnology**.

(iv) **Prof. B.R.De**, reemployed from 01.02.05, is engaged in theoretical modeling of reactions paths of chemical reactions in ground and excited states. Published three papers in International Journals.

(v) **Dr. S. Dalai** is engaged in theoretical calculations (semiemperical and ab initio) of various organic molecules especially in trsted in exploring peptide molecules and protein – nucleic and interactions. Collaboration research programme is also running with Material Science Centre, Indian Institute of Technology, Kharagpur.

(vi) **Dr. D. Chattopadhyay** joined this department on 15.02.2005. His research areas are conducting Polymer Nanoparticles, Polymeric Gel, Insitu composite, controlled Drug Delivery. Submitted two projects- one in AICTE and one in DST.

(vii) **Dr. Sumita Roy** joined this department on 18.02.2005. Her broad area of research is synthesis & characterization of the self-assemblies of some selected single chain N-acyl amino acid surfactants and their corresponding polysoaps.

9. Refresher/Orientation Course attended: Nil

10. **Highlights:**

One office room and an office assistant for the department are very much essential. Space for the department is also very much needed since same laboratories are used both for PG-1 & PG-II special papers students. Some new research projects are coming in the dept. for which newlaboratories and separate sitting rooms are urgently needed for the faculty members. Students also face space problems in laboratory.
